

STATEMENT OF WORK

Offeror will:

Set up training for a minimum of half a day, but can take as long as a full day. Training concludes once everyone is comfortable with the system.

There is no limit to the number of staff who can attend, but it is recommended that training be just those who will be using the equipment.

The Offeror representative will unpack, set up hardware, run system and software diagnostics and system operational aspects of the equipment.

Tallahassee Healthcare Center will:

Tallahassee Healthcare Center is responsible for HL7/DICOM setup, and any electrical tests.
