## **3.0 EVALUATION FACTORS**

The Government will award a firm fixed priced contract to the responsible offeror whose offer, conforming to the requirements in this request for quote, will be most advantageous to the Government, price and other factors considered. A Lowest Price Technically Acceptable award will be made based upon the following factors: Technical Approach, Past Performance, and Price. If any quote's technical approach or past performance is determined to be unacceptable, the entire quote will be considered unacceptable.

**Factor 1: Technical/Management Approach**

- Offeror shall submit technical information detailing implementation and sustainment of the Employee Assistance Program IAW of the Statement of Work.
- Offeror shall include all licenses and key personnel for this acquisition IAW Section II, c., of the Statement of Work.

The Technical Rating shall be rated based on Table A below:

<b>Table A Technical Ratings</b>	
<b>Rating</b>	<b>Description</b>
Acceptable	The proposal clearly meets the minimum requirements of the solicitation.
Unacceptable	The proposal does not clearly meet the minimum requirements of the solicitation.

**Factor 2: Past Performance**

Past performance information will be utilized to determine the quality of the contractor's past performance as it relates to the probability of success of the required effort. The Government will evaluate customer satisfaction, responsiveness to customer needs, and past demonstration of meeting delivery schedules and the delivery of quality services. Emphasis will be on recent, relevant past performance in the previous 3 years. Recent is defined as work performed within the last three years. Relevant is defined as work similar in size and scope of the work described in the Performance Work Statement (PWS).

Past performance information is one indicator of an offeror's ability to perform the contract successfully. Current and relevant information, source of information, context of data, and general trends in Contractor's performance shall be considered as it pertains to the performance of work described in this solicitation. Offerors may provide information on problems encountered on identified contracts and the offeror's corrective action. The Government shall consider this information as well as information obtained from any other sources when evaluating the offeror's past performance.

Since the Government may not necessarily interview all sources provided by the offerors, it is incumbent upon the offeror to explain the relevance of the data provided. Offerors are reminded that the Government may elect to consider data obtained from other sources.

Offerors with no relevant past performance or whom information is not available, shall receive a neutral rating. The Past Performance Rating shall be based on Table B below:

<b>Table B Past Performance</b>	
<b>Rating</b>	<b>Description</b>
Acceptable	Based on the offeror's performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Neutral	The offeror did not submit relevant past performance or the information on past performance is not available or so sparse that no meaningful rating can be assigned.
Unacceptable	Based on the offeror's performance record, the Government does not have a reasonable expectation that the offeror will be able to successfully perform the required effort.

### **Factor 3: Price**

Prices shall be submitted in accordance with the Price Schedule contained in the Solicitation. Total price will be evaluated by the Government. In evaluating the offeror's proposed price for this project, the Government concern includes determining price reasonableness. The Government will evaluate proposed prices to determine whether prices are realistic for the work to be performed, reflect a clear understanding of the requirements, and are consistent with the various elements of the offer.

For evaluation purposes the Government will evaluate offers by adding the total price for all options to the total price for the base requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

### **4.0 DUE DATE**

All offers shall be submitted by **2:00 PM EST, May 14, 2018** via email to Jeremy Boston at [Jeremy.Boston@va.gov](mailto:Jeremy.Boston@va.gov).

## **E.3 ADDENDUM to FAR 52.212-2 EVALUATION—COMMERCIAL ITEMS (OCT 2014)**

This is a competitive selection in which competing offers will be evaluated on the basis of Lowest Price Technically Acceptable.

The evaluation process shall proceed as follows.

1. Offers will be initially reviewed for compliance all terms and conditions required by the solicitation, to include but not limited, any established socio-economic set-asides, the requirements established within the SOW, Salient characteristics, and/or terms and conditions that establish minimum offer submission requirements. Offers received from firms that do not qualify under any established socio-economic set-aside identified in the solicitation, shall be rejected without review and without notification. Offers that comply with all terms of the solicitation will then move forward to the next step as detailed below. Offers that do not comply with all terms and conditions of this solicitation may be rejected for noncompliance.
2. Next, offers shall be ranked according to price, including option prices if applicable. An offeror's proposed price will be determined by multiplying the quantities identified in the pricing schedule by the proposed unit price for each contract line item to confirm the extended amount for each item. The extended amounts will be added together to determine the total evaluated price.

3. Next, the lowest priced offer shall be evaluated for technical acceptability. Technical acceptability shall be evaluated on a pass/fail basis considering whether the proposed product meets or exceeds the specifications identified in Section B of the delivery schedule.

4. If the lowest priced offer is determined technically acceptable, that offer represents the best value to the government and the evaluation process stops at this point. Award shall be made to that offeror without further consideration of any other offers.

5. If the lowest priced offer is not determined technically acceptable, the next lowest priced offer will be evaluated for technical acceptability and the process will continue in order by price until an offer is judged technically acceptable.

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
