LOGIQ P9 R2.5 Five Year Standard Warranty

LOGIQ P9 R2 general imaging ultrasound system provides strong performances through ease of use and personalized system. Built upon Agile Acoustic Architecture technology, the LOGIQ P9 R2 helps you achieve great images using innovative tools CrossXBeam (Spatial Compounding), SRI HD (Speckle Reduction Imaging in High Definition), and Coded Harmonics. Workflow features such as Raw Data for post-processing of images, Automatic Optimization, Easy 3D and Virtual Convex. The simple and compact design of the LOGIQ P9 include a 21.5 inch high-resolution color flat panel wide screen monitor with fully articulating arm, adjustable console, high cabinet, side tray, 10.4 inch wide color LCD touch screen, and four active probe ports. Scanning modes include B-Mode, M-Mode, Color Flow, Pulsed Wave, and Power Doppler. Other system features include: Windows** 7 operating platform,776MB cine memory, approximately 500 GB internal hard drive, footrest, physical and digital user programmable presets, My Page, My Trainer, digital TGC, digital A/N keyboard and digital copy of user documentation (eDocs). Initial installation includes a five-year standard warranty including probes and two days of On-site Applications Training. Training must be completed within six (6) months after Product delivery, otherwise
obligation to provide the training will expire without refund. Additional On-site Applications Training days are available for purchase. Customer workflow permitting and abiding by SDMS criteria, sonographer install CE's may be provided during install training.

ML6-15L (5-13MHz) Matrix Linear Array Transducer

Wide band 5-13MHz matrix linear array transducer. Preferred Applications: Vascular, Neonatal, Pediatrics, Small Parts. Biopsy kit currently available.

C1-5-RS Convex Transducer

Broad-spectrum convex transducer. Preferred applications:

Kit Available.

LOGIQ P9 DICOM

DICOM option can be used through LAN, and provides print, store, multi-frame, modality worklist, verify, MPPS (Modality Performed Procedure Step), and storage commitment functionality.

LOGIQ P9 B Steer+

B-Steer+ with pattern recognition technology to help highlight the needle and needle tip.

Wireless LAN option

Wireless LAN option

LOGIQ P9 R2 External Battery

LOGIQ P9 R2 External Battery

Point of Care Preceptorship Training

Point of Care Preceptorship- Up to 8 hours on site training with care area specialist in the Point of Care markets. Learn scanning techniques and image optimization with top leaders in their respected fields while gaining valuable ultrasound knowledge. Geared for customers that desire more in-depth ultrasound knowledge in their specialty in the Point of Care space. Available only in the continental United States. Limited to 3 individuals. The max of 8 hours on-site training must be used in a single day.

NextGen LOGIQ e R7

On-Site Application Day

One day of On-Site Applications training.

SonoSim 365 for

The SonoSim Ultrasound Training Solution is a portable, virtual ultrasound training experience, utilizing real patient cases with a broad spectrum of normal and pathologic conditions. The SonoSim 365 for   provides convenient ultrasound education

knowledge assessment. Learn ultrasonography from the comfort of your own home, anytime, anywhere. SonoSim 365 for comes with a SonoSim Probe, a SonoSim Drive, five SonoSim Modules, and one year warranty of SonoSim Care. Upon installation of the software, users can immediately access online SonoSim Courses and begin performing hands-on scanning using a personal computer. Your signature on this quotation for this item will give   the permission to provide your name and contract information to SonoSim for entitlement.
