Scope of Work

VA San Diego Medical Center

Multiple Floor Replacement

Justification:

Remove the Asbestos containing mastic under the existing badly worn floor covering and replace the floor covering

The Scope of Work for this project:

Bid Item 1:

Contractor to provide all labor and materials, including removal and disposal of waste, to remove existing flooring material, abate ACM mastic and replace flooring as specified on document labeled "Bid Item 1". Contractor is to complete work by in a manner that does not interrupt the business operations of the section. This will require the contractor to perform no more than 1 room per wing at any given time. Flooring material is to be replaced with new flooring as specified per room.

Bid Item 2:

Contractor to provide all labor and materials, including removal and disposal of waste, to remove existing flooring material, abate ACM mastic and replace flooring with specified heat welded sheet vinyl per drawing "Bid Item 2". Contractor to propose phasing plan for each space to satisfy the following requirements;

- a) At no time is more than one patient room under construction or inaccessible
- b) Allows all required means of egress to satisfy life safety requirements for a healthcare setting

Locations: Bid Item 1
