

Drain line to
demo

A photograph showing a narrow trench next to a large piece of industrial equipment, likely a generator. The trench is filled with dark, moist soil. On the left side of the trench, a vertical pipe or cable runs down. On the right side, there are various pipes and mechanical components. A red squiggly line runs vertically along the right side of the trench. Two red arrows point from text boxes to specific locations in the trench. One arrow points to a horizontal pipe near the top, and the other points to a vertical pipe near the bottom. A red squiggly line also points to a horizontal pipe near the bottom.
