5. **Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):** Currently, there are 15 Veterans being housed/treated at the Juniper Park CNH under an existing short-term purchase order. The community nursing home facility meets VA exclusion review quality of care standards to provide treatment to Veterans. The community nursing home has had a contract with the VA since 2000. They have consistently provided care to our Veterans. The VA patients at this facility cannot be moved without causing undue medical hardship. An attempt to move the patients would cause a disruption in treatment plans and stress on the patient and family members if relocated to a different facility. In accordance with FAR 6.302-1 this requirement for Community Nursing Homes Services will be sole sourced to Juniper Park LP, (DBA: The Spearly Center). They are meeting the needs of the VA Medical Center and Veterans in the area.
6. **Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:** A sources sought was posted on Federal Business Opportunities (FBO) on November 21, 2017 and closed on November 27, 2017. No potential offerors responded to the sources sought. The Small Business Administration website and the VA's Vendor Information Pages (VetBiz) were used to determine if potential offeror exists to determine additional competition. However, both sites failed to produce any results for Denver, Colorado.
7. **Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:** The Medicaid rates are used as the basis for pricing for CNH contracts. The Medicaid rates are established by each state. The VA Geriatrics and Extended Care Office publish the maximum add-on percentages that can be negotiated for each Medicaid category or Resource Utilization Group (RUG). The IDC CLIN structure will reflect the RUGS IV levels of care (VA Base Rate) plus an add-on percentage that makes up the per-diem rate for each level of care. The Contracting Officer will determine that prices are fair and reasonable for each level of care, when it negotiates both the VA Base rate and an add-on percentage for each level of care. Prices are determined to be fair and reasonable based on a negotiated mark-up percentage that does not exceed the maximum allowable percentage established by VA. The add-on percentages do not change through the life of the contract. These maximum add-on percentages can be found in the Veterans Health Administration Procurement Manual Community Nursing SOP (Attachment 17)
8. **Description of the Market Research Conducted and the Results, or a Statement of the Reasons Market Research Was Not Conducted:** As described in Section 6 above, market research, in accordance with FAR Part 10, was conducted by synopsis of the proposed acquisition, advising industry of the pending acquisition and soliciting inquiries from interested parties. Sources sought was posted on Federal Business Opportunities (FBO) on November 21, 2017 and closed on November 27, 2017. No potential offerors responded to the sources sought. The Small Business Administration website and the VA's Vendor Information Pages (VetBiz) were used to determine if competition exists. However, both sites failed to produce any results for Denver, Colorado. A search of the Medicare Nursing Home Compare website (<https://www.medicare.gov/nursinghomecompare/search.html>) resulted in 14 CNH within the city of Denver.
9. **Any Other Facts Supporting the Use of Other than Full and Open Competition:** There are currently 15 patients in the Juniper Park LP, (DBA: The Spearly Center) home which cannot be relocated or moved because of continuity of care and, medical complexity. Also, this CNH facilitates a location near the families of these Veterans.
