Figure 1. Schematic representation of the experimental design. The figure is divided into six panels (A-F) showing the layout of the experimental area and the positions of the subjects and the stimuli. The panels are labeled A, B, C, D, E, and F. The top panel (A) shows the overall layout with a central area and four surrounding areas. The bottom panel (F) shows the positions of the subjects and the stimuli. The panels are labeled A, B, C, D, E, and F. The top panel (A) shows the overall layout with a central area and four surrounding areas. The bottom panel (F) shows the positions of the subjects and the stimuli.
