

Mobile Workstation Questions

1. Regarding Item 0015, the specified monitor handle mounts cannot be used on the cart when an All-In-One computer is mounted. Would the Government please remove Item 0015? **The monitor handle is not usable with the AIO (all in one) computer and was included mistakenly. It should be removed from the description.**
2. Regarding Item 0019 and the requirement for hot swappable batteries for the carts, the batteries will require charging stations, which are not included in the solicitation. Would the Government please amend the solicitation to include the required quantity of cart battery charging stations? **The charging stations are really NOT necessary. Each cart has removable batteries that powers the cart and the AIO. No stand along chargers at this time.**
3. Regarding Item 0024 and the requirement for hot swappable batteries for the All-In-One computers, the batteries will require charging stations, which are not included in the solicitation. Would the Government please amend the solicitation to include the required quantity of AIO battery charging stations? **The cart battery, the AIO also has batteries. So, when the cart is plugged in, it will charge the removable battery for mobile use and also charge the AIO battery. No stand along chargers at this time.**
