

Brand Name or Equal Worksheet (“Salient Characteristics”) v 2.0

Brand Name Item:

1) Essential/significant physical, functional, or performance characteristics.

	SAFE-T SIM ST-1 Compact Electrical Safety Analyzer with user
	defined
	automation, Applied Parts testing, ECG, Respiration simulations
	and auxiliary
	battery option. Maximum rating 132VAC, 15 Amp.
	Accessories: 15A power cord, Test Lead Cable (Red), Operator's
	Manual, 2 AA
	Alkaline Batteries, USB cable and carrying case.
	Optional Integrated Bluetooth module for real-time electronic data
	Optional Integrated Bluetooth module for real-time electronic data
	iOS 9.3 or higher and Bluetooth 4.0 or higher.
	OPTIONAL ACCESSORY: Black Test Lead Cable. Used for
	Point-to-Point resistance testing.
	OPTIONAL ACCESSORY: Mounting bracket/ clamp assembly.
	Provides for clamping SAFE-T SIM to bench or cart. Can be used
	as tilt stand, rotates 360 degrees.
	FlowTrax FT-2– Palm size Infusion Pump Analyzer with Electronic
	Occlusion testing, Graphical Occlusion Pressure Curve, Quick
	Prime, Digital Pressure & Temperature Meter with
	Stopwatch/Timer. 1% measurement accuracy for flow rate &
	volume. Compatible with all types of infusion devices. All
	parameters NIST traceable.
	Accessories included: carrying case, power supply, syringe with 3
	way stopcock, output hose, USB & temperature probe extension
	cables, pressure testing luer connector, cleaning solution, flush
	bottle, spare filter screens, brush & User DVD.
	SEE THE ATTACHED BROCHURE FOR OPTIONAL
	ACCESSORIES TO MAKE YOUR INFUSION PUMP TESTING
	EVEN EASIER.
	SimCube Patient Simulation System ADVANCED
	NIBP, IBP, Arrhythmia, ECG, Resp, SpO2 with user configurable
	settings & Masimo rainbow SET® compatibility, Cardiac Output,
	Temp, Pacer, Digital manometer, Over pressure & Leak Test
	modes. Includes
	SIMCUBE SC-5 NIBP
	OXSIM FLEX OX-2 SpO2
	SIMSLIM SL-8 multi-parameter simulator

Brand Name or Equal Worksheet (“Salient Characteristics”) v 2.0

	Accessories: Battery Boost, Carrying Case, 6 NIBP adapters, IBP
	extension cables, IBP Adapter of your choice, YSI Temp cable,
	Cuff Jacket, power supply & operator's manuals.
	Masimo rainbow Test Sensor not included.
	IBP cable adapter for HP Merlin/Philips
	Backpack Carrying Case for all Pronk Products and accessories
	Discount - BMET Case: Upgrade to BMET Pack in lieu of
	standard carrying case(s)
	4 Year Warranty Parts & Labor
	Calibration Certificate Traceable to NIST valid for (1) year

2) Complete generic identification

Pronk Test Equipment

3) Applicable model/make/catalog number

SAFE-T SIM (12EA)	SAFE-T SIM ST-1 Compact Electrical Safety Analyzer with user
	defined
	automation, Applied Parts testing, ECG, Respiration simulations
	and auxiliary
	battery option. Maximum rating 132VAC, 15 Amp.
	Accessories: 15A power cord, Test Lead Cable (Red), Operator's
	Manual, 2 AA
	Alkaline Batteries, USB cable and carrying case.
SAFE-T SIM (12EA) BLUETOOTH	Optional Integrated Bluetooth module for real-time electronic data
	Optional Integrated Bluetooth module for real-time electronic data
	iOS 9.3 or higher and Bluetooth 4.0 or higher.
SAFE-T SIM (12EA)	OPTIONAL ACCESSORY: Black Test Lead Cable. Used for
Test Lead Blk	Point-to-Point resistance testing.
SAFE-T SIM (12EA)	OPTIONAL ACCESSORY: Mounting bracket/ clamp assembly.
Mount	Provides for clamping SAFE-T SIM to bench or cart. Can be used
	as tilt stand, rotates 360 degrees.
	FlowTrax FT-2– Palm size Infusion Pump Analyzer with Electronic
	Occlusion testing, Graphical Occlusion Pressure Curve, Quick

	volume. Compatible with all types of infusion devices. All parameters NIST traceable.
FlowTrax KIT (6EA)	Accessories included: carrying case, power supply, syringe with 3 way stopcock, output hose, USB & temperature probe extension cables, pressure testing luer connector, cleaning solution, flush bottle, spare filter screens, brush & User DVD.
	SEE THE ATTACHED BROCHURE FOR OPTIONAL ACCESSORIES TO MAKE YOUR INFUSION PUMP TESTING EVEN EASIER.
FT-IV Pole (6EA)	SimCube Patient Simulation System ADVANCED
Mount	NIBP, IBP, Arrhythmia, ECG, Resp, SpO2 with user configurable settings & Masimo rainbow SET® compatibility, Cardiac Output, Temp, Pacer, Digital manometer, Over pressure & Leak Test modes. Includes
SimCube (6EA)	SIMCUBE SC-5 NIBP
Simulation	OXSIM FLEX OX-2 SpO2
System	SIMSLIM SL-8 multi-parameter simulator
ADVANCED	Accessories: Battery Boost, Carrying Case, 6 NIBP adapters, IBP extension cables, IBP Adapter of your choice, YSI Temp cable, Cuff Jacket, power supply & operator's manuals.
	Masimo rainbow Test Sensor not included.
IBP-Philips (6EA)	IBP cable adapter for HP Merlin/Philips
BMET Pack (12EA)	Backpack Carrying Case for all Pronk Products and accessories
Discount-BMET (18EA)	Discount - BMET Case: Upgrade to BMET Pack in lieu of
Case	standard carrying case(s)
Warranty	4 Year Warranty Parts & Labor
	Calibration Certificate Traceable to NIST valid for (1) year

4) Manufacturer name – **Pronk**

Per VAAR 811.104 and 811.105, I certify the following regarding the above information:

- The salient characteristics listed above are essential to the Government’s requirements.
- To my knowledge, the restrictions listed above will not limit the acquisition to an item peculiar to one manufacture.
