- 3. Unique characteristics that limit availability to only one source, with the reason no other supplies or services can be used:** The medical center requires the instruments to provide care to the patient in the operating room. The instruments are an addition to the current sets same brand in use by the medical center. The standardization of instruments is necessary for continuity of care across the medical center, and reduces the chances of incorrect set assembly. The medical center owns equipment and stocks disposables that only brand name is compatible. It is in the best interest of the government to purchase brand name to prevent additional capital and accessory stock.
- 4. Description of market research conducted and results or statement why it was not conducted:** Market research, in accordance with Far Part 10, was conducted by checking GSA Advantage and eLibrary to make sure items were open market. Sources Sought was also posted on FBO and a searched thru VIP.
