

Statement of Need (SON)
Stress Vest Force on Force, Firearm Tactical Training System

1. Introduction

The Veterans Healthcare System of the Ozarks (VHSO), located at 1100 N College, Fayetteville, AR plans to procure a complete Non- Projectile, Force on Force, Firearm Tactical Training System capable of creating stress through a pain penalty without the fear of projectile injury for training Law Enforcement Officers. The system utilizes a training firearm that fires a laser pulse which activates the vest.

2. Information

The Contractor shall furnish a non- projectile, force on force, firearm tactical training system, with no face mask required, capable of creating stress through a pain penalty. It must have a realistic weapons system, method to record hits with no clean up and dryfire, CO2 recoil & blank fire options. It must include injured officer simulation, with adjustable pain penalty and be able to shoot through glass. The system must utilize training firearms that fire a laser pulse which activates the vest when it strikes center mass. The system must include an instructor initiated remote activation and have advanced IED integration.

3. Product Specifications and Quantities

The Contractor shall provide:

- 8 Each - Vest, Belt and Transmitter.
