### **B.3 PERFORMANCE WORK STATEMENT**

**DEPARTMENT OF VETERANS AFFAIRS  
Veterans Health Administration  
National Center for Post-Traumatic Stress Disorder**

**Mental Health Mobile Applications Clinical Testing and Content Writing Support**

**Date: July 9, 2018  
TAC-18-50881  
PWS Version Number: 1.0**

## 1.0 BACKGROUND

The Department of Veterans Affairs (VA), National Center for Post-Traumatic Stress Disorder (NCPTSD), Dissemination and Training Division is responsible for creating training and educational products to support evidence-based care of Veterans with Post-Traumatic Stress Disorder (PTSD) and related problems. PTSD is very common among Veterans and has a significant impact on Veterans' quality of life. Most Veterans with PTSD do not access evidence-based treatments for PTSD, and many Veterans are either unable or choose not to access available mental health services of any kind. Lack of available services, distance from clinics, and stigma associated with mental health care are just a few of the barriers to providing care for Veterans and those living with a Veteran with PTSD. NCPTSD has developed mobile applications (apps) to overcome these and other barriers to care. The apps are designed to assist Veterans and their family members with understanding PTSD and related problems, tracking their improvement over time, obtaining support and resources, and managing symptoms using a variety of brief tools.

NCPTSD has developed a variety of mobile applications in the past seven years, including, most notably, the multi-award winning PTSD Coach (Winner of the Advancements in Accessibility Award from the Federal Communications Commission 2011 and Winner of the President's Innovation Award from the American Telemedicine Association 2012). NCPTSD currently maintains a portfolio of 25 native, publicly-available apps (e.g., PTSD Coach, CBT-i Coach, Mindfulness Coach, PE Coach, Stay Quit Coach), that have been downloaded from the App Store and Play Store by over 640,000 Veterans and others. The portfolio currently consists of 16 native (i.e. Objective-C) iOS apps and 9 native (i.e. Java) Android apps. Each mobile app aims to address specific implementation challenges faced by Veterans and their family members in receiving education, training, and treatment.

The NCPTSD Dissemination and Training Division has also been charged with ensuring that NCPTSD mobile apps are 1) capable of supporting scientific research, 2) capable of responding to the needs of Veterans, VA providers, and other stakeholders, and 3) reflect the most up-to-date and evidence-based guidelines for addressing PTSD and PTSD-related concerns in Veterans. To meet this charge, NCPTSD has a multi-phase coordinated research program to study the usability, efficacy, and implementation of these applications and works directly with Mental Health Services in VA Central Office to ensure that products are aligned with the mission to enhance and optimize mental health care for Veterans. NCPTSD has also made strides to ensure that its suite of mobile applications are as easy-to-use as possible, are designed to reflect the needs of Veteran users, and integrate the best-available clinical recommendations to support Veterans' recovery from PTSD.

This contract action is part of a set of activities designed to maintain, redesign, and upgrade existing mobile apps previously built for NCPTSD, in order to provide reliable, high-quality mental health service to Veterans, their families, health care providers, and others. The specific work assignments will be determined throughout the period of performance, as Apple's successive updates to iOS and Google's successive updates to Android introduce new bugs and performance problems to the apps over the year, and as NCPTSD staff consider and develop possible new features. NCPTSD has a need to more rapidly provide feedback to the VA mobile app developers, to more rapidly generate content for new apps, to be more responsive to requests for updates to existing apps in the portfolio, and to have an additional layer of clinical review to ensure appropriateness and utility for Veterans with PTSD. NCPTSD requires support with clinical content writing (including development of clinically-supported, evidence-based, user-

friendly patient education materials), clinical review of existing content to ensure appropriateness to the Veteran population and consistency with the latest clinical evidence on PTSD treatment and recovery, Veteran-focused user experience testing to evaluate apps to ensure that they are easy to use, relatable, and inviting to Veterans with PTSD (e.g., making sure the user experience is not frustrating for Veterans and suggesting alternative approaches that could improve the user interface to better meet the needs of those with PTSD), and mobile app testing to ensure that app functionality and user interfaces are consistent with iOS and Android user interface guidelines, and expectancies of adult Veterans. This contract will assist NCPTSD in more quickly turning around builds to the mobile app developers to speed mobile app design, development, and maintenance.

5. Ensuring consistency with Apple iOS human interface guidelines, Android design guidelines, and recently-released NCPTSD mobile apps.
6. Optimizing user experience, which at a minimum shall include reviewing wireframes and app sequences to identify potential dead-ends (i.e., views that cannot be easily navigated out of, user-entered information that cannot be changed or edited, etc.) or ways of interacting with the apps that are likely to be confusing for different types of Veterans using the app; offering suggestions for simplifying user interaction elements and alternative flows; identifying additional clinical content that could assist Veterans in making better use of the apps.
7. Testing for Section 508 accessibility compliance.
8. Conducting comprehensive testing of research versions of apps by visiting and recording all screens within the app and checking that data transmitted from research versions of apps (i.e., timestamps, buttons tapped, user-entered data) match testing records (i.e., data transmitted in JavaScript Object Notation (JSON) format should match testing records of which app screens were visited, dates and times for when each screen was visited, and any data entered by the tester while testing the app).
9. Veteran-focused user experience testing. Testing shall include focused (i.e., testing one section or feature of an app) and general (i.e., testing every feature and section of the app) testing of mobile apps using specific user personas (e.g., repeat survey-taker, skeptical user, long-term user, etc.). The Contractor shall also conduct user experience interviews with target users, employing established user experience (UX) research principles. The Contractor shall incorporate results of user experience interviews into recommendations for cost-effective design changes that could improve users' experiences with the app.

The Contractor shall provide a Weekly Testing Report that summarizes the testing performed during the week and the progress made on the issues reported in the issue tracking system. In addition, any recommended user experience improvements and suggested clinical content shall be included in the Weekly Testing Report.

Final deliverables of each testing project shall include the delivery of all testing documentation and reports as described above. Before any work begins on a testing project, the Contractor shall produce time estimates of the number of hours that will be needed for the work to be performed, and shall obtain the approval of NCPTSD for the expenditure of hours.

**Deliverable:**

- A. Testing Documentation and Reports
- B. Weekly Testing Report

### **5.3 CONTENT FOR MOBILE APPS**

The Contractor shall provide content writing support services for mobile apps and public health education materials to support NCPTSD mobile apps for PTSD, based on the best available scientific evidence, current VA norms and standards for the clinical care of Veterans with PTSD, expert knowledge of VA care for PTSD, current clinical guidelines for the treatment of PTSD, and familiarity with common terms and expressions used by Veterans. NCPTSD mobile apps for PTSD need to be kept up-to-date with, for example, the newest treatment, educational materials, and available clinical science. The Contractor shall be responsible for writing up-to-date content to be used in publicly-released mobile apps for mental health and supporting handouts and patient education materials.

The Contractor shall write public health education materials capable of being included in NCPTSD mobile apps, such as brief psychoeducational topics specific to PTSD treatment and recovery (see PTSD Coach, PTSD Family Coach, and other publicly-available NCPTSD apps for examples). The Contractor shall provide written outlines and wireframes for detailed tools and other app features requested by NCPTSD. The Contractor shall create flyers and other web-based promotional materials to support appropriate implementation of VA mobile apps across VA treatment settings. The Contractor shall use the best available scientific evidence for treatment of PTSD to write the content while also writing content that can be quickly and easily read and is optimized for delivery on a mobile device or tablet. The Contractor shall write content that is accessible to the widest possible range of reading levels, with brief content that is accessible to reading levels of sixth grade and below and more detailed content accessible to those with slightly higher reading levels. (h) *Certification Regarding Responsibility Matters* (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

#### **E.7 BASIS FOR AWARD**

Comparative evaluation will be performed in accordance with Federal Acquisition Regulation (FAR) 13.106-2(b)(3). The Government will award a contract from this solicitation to the responsible Quoter whose quote conforms to the solicitation and represents the best overall value to the Government with appropriate consideration given to the following four evaluation Factors: Technical, Price and Veterans Involvement. The Technical Factor is significantly more important than the Price Factor, which is slightly more important than the Veterans Involvement Factor. The Government reserves the right to select a response that provides benefit to the Government that exceeds the minimum requirement. The Government is not requesting or accepting alternate quotes. The Government reserves the right to award to a Quoter with other than the lowest price.

All quotes shall be subject to evaluation by a team of Government personnel. The Government intends to make an award selection without clarifications and/or discussions, but may determine after evaluating the quotes submitted that clarifications and/or discussions are necessary and conduct them as appropriate. The quote will be evaluated strictly in accordance with its written content.

The Government will conduct a comparative evaluation of Quoters' responses based upon the following factors:

1. **TECHNICAL:** The quote will be evaluated to determine the extent to which it clearly demonstrates meeting and/or exceeding the PWS requirements identified in the submission instructions.
2. **PRICE:** The Government will evaluate the price by adding the total of all line item prices, including all options. The Total Evaluated Price will be that sum.

3. **VETERANS INVOLVEMENT:** In accordance with Veterans Affairs Acquisition Regulation (VAAR) 852.215-70 (DEVIATION), Service-Disabled Veteran-Owned and Veteran-Owned Small Business (VOSB) Evaluation Factors, the Government will assign evaluation credit for a Quoter (prime contractor) which is a Service-Disabled Veteran-Owned Small Business (SDVOSB) or a VOSB. To receive credit, a Quoter must be registered and verified in Vendor Information Pages (VIP) database at time of submission and at time of award (<https://www.vip.vetbiz.gov>) and must meet federal small business size standards for the North American Industry Classification System (NAICS) code assigned to this solicitation.

Non-SDVOSB/VOSB Quoters proposing to use SDVOSBs or VOSBs as subcontractors will receive some consideration under this evaluation Factor. Quoters must state in their quotes the names of the SDVOSBs and VOSBs with whom they intend to subcontract and provide a brief description of the proposed subcontracts and the approximate dollar values of the proposed subcontracts. In addition, the proposed subcontractors must be registered and verified in the VetBiz.gov VIP database (<https://www.vip.vetbiz.gov>) and must meet federal small business size standards for the NAICS code assigned to this solicitation at time of both submission and at time of award.

## **E.8 QUOTE SUBMISSION INSTRUCTIONS**

The Quoter's proposal shall only be submitted electronically by the date and time indicated in the solicitation via <https://www.vendorportal.ecms.va.gov>\*

Quotes submitted by any other method will not be considered. Quotes submitted by Quoters shall be based upon the following factors: Technical, Price and Veterans Involvement. The use of hyperlinks or embedded attachments in proposals is prohibited. Accordingly, any information contained within an embedded attachment and/or hyperlink will neither be accessed nor evaluated.

**\*Any concerns regarding the submission to the eCMS VENDOR PORTAL shall be addressed to the VA Acquisition Systems Helpdesk via email at [VA.Acquisition.Systems@va.gov](mailto:VA.Acquisition.Systems@va.gov) or via phone at (877) 634-3739.**

However, be advised that any and all information contained within any Table of Contents and/or glossary of abbreviations or acronyms submitted with the quote will not be evaluated by the Government. Responses to Price, Veterans involvement, Solicitation, Quote, and Award Documents and Certifications/Representations or Subcontracting Plan will not be included in the page count of the Quote.

**WARNING: Do not wait until the last minute to submit your proposals! Late proposals will not be accepted for evaluation. To avoid submission of late proposals, we recommend**

**the transmission of your proposal file 24 hours prior to the required proposal due date and time. Please be advised that timeliness is determined by the date and time an Offeror's proposal is received by the Government not when an Offeror attempted transmission. Offerors are encouraged to review and ensure that sufficient bandwidth is available on their end of the transmission.**

Amendments to this solicitation will be posted at <http://www.fedbizopps.gov>.

**Labor Hour:** The total evaluated Labor Hour price will equal the sum of the total labor price for the entire task order period, including options, if any. The Government will verify the Offeror's calculation of the total proposed price. The estimated labor hours are for evaluation purposes only and do not obligate the Government to award such labor hours.

**Price Rounding Issue -** The Government requires Quoters to propose unit prices and total prices that are two decimal places and requires the unit prices and total prices to be displayed as two decimal places. Ensure that the two digit unit price multiplied by the item quantity equals the two digit total item price (there should be no rounding).

All Quoters should propose using an estimated award date of September 30, 2018.
