Questions & Answers to RFQ 36C24618Q0725

1. The Contracting Office was asked to provide more detail regarding the sources product descriptions and activity amounts for the following items;

35	Cobalt 57 Sheet sources—20 mCi (include 1 for 1 return/exchange + shipping)
36	Cobalt 57 vial sources—5.5 mCi (include 1 for 1 return/exchange + shipping)
37	Cobalt 57 pen markers—0.2 mCi (include 1 for 1 return/exchange + shipping)
38	Cobalt 57 spot markers—0.1 mCi (include 1 for 1 return/exchange + shipping)
39	Cesium 137 vial sources—0.2 mCi (include 1 for 1 return/exchange + shipping)
40	Cesium 137 spot sources—0.001 mCi (include 1 for 1 return/exchange + shipping)
41	Survey Meter Calibration by (NVLAP ISO/IEC 17025 accredited) company that uses NIST traceable sources—7 meters annually (include shipping)

2. The Contracting Office was asked if products would need to be delivered to the Asheville VAMC on weekends?
There could be emergency dose ordered after hours and/or on weekend. It is on the price list as the last item—misc. charges, emergency, holiday, fuel, or weekend charge. It happens a few times per year currently. Please specify ANY additional charges other than the dose in that box.
