## **Virtual Office of Acquisition (VOA)**

This virtual office provides a foundation for the acquisition community that allows the government to better communicate with the general public, manage the acquisition data internally, and share information seamlessly with existing applications.

The Virtual Office of Acquisition (VOA) will initially consist of the Supplier Relationship Transformation Portal. VA recognizes that our Supplier community is a significant partner in addressing critical acquisition issues. This portal facilitates an easy and open exchange of information from the Supplier community to key VA decision makers.
