PROJECT NAME:	Canopy Walkway Between COSS/GI	DATE REQUESTED:	08-27-2018
SOLICITATION NO.:	36C26118B0600	REFERENCE:	Shade Structure
DRAWING:		SPECIFICATION SECTION:	10 74 00-2
DESCRIPTION OF PROBLEM OR INFORMATION BEING REQUESTED			
<p>Please be specific as possible:</p> <p>Specification calls for HDG (hot dip galvanized) with powder coating and stainless steel hardware. For the site location it is not a standard practice to use HDG or stainless steel hardware. Per our manufacturing guidelines we recommend our standard powder coat and galvanized hardware. There is additional lead time (2-3 weeks) required for HDG as well as cost for HDG and stainless steel hardware. Both can be done but want to make sure we are being mindful of time, budget and design intent of the end user.</p> <p>Lead Time: Based on current specifications of the shade structure there is a 15 week lead time from time of design sign off. The structure can be manufactured with recessed or surface mounted base plates to allow foundations to be installed during the manufacturing process to decrease the installation time at time of structure delivery.</p> <p>Please let us know how you would like to proceed with current options and design based on the above information.</p>			
VA PROJECT MANAGER'S RESPONSE			

Specification Section referenced not found.

Powder coated is acceptable for hardware system.

PROJECT NAME:	Canopy Walkway Between COSS/GI	DATE REQUESTED:	8/15/18
SOLICITATION NO.:	36C26118B0600	REFERENCE:	
DRAWING:	N/A	SPECIFICATION SECTION:	10 74 00 Part 1 1.3.A.3

DESCRIPTION OF PROBLEM OR INFORMATION BEING REQUESTED

Please be specific as possible:

Section 10 74 00 Part 1-1.3.A.3 States that “Manufacturer must produce the shade systems in a wholly owned factory. Outsourcing of fabrication or finishing is not acceptable.” This is relatively rare in the industry and will limit competitive bids. Assuming product, workmanship, QC, and warrantee meet spec, can this requirement be waived?

VA PROJECT MANAGER’S RESPONSE

Specification section referenced was not found.

Shade system must be a complete system.

SOLICITATION NO.:	36C26118B0600	REFERENCE:	N/A
DRAWING:	N/A	SPECIFICATION SECTION:	N/A

DESCRIPTION OF PROBLEM OR INFORMATION BEING REQUESTED

Please be specific as possible:

The intention and requirements for a design-build canopy are clear. However, please confirm the services of a professional architect/engineer is required for the establishment of stamped construction drawings and specifications. If so, please outline the expectations and durations for owner review/approval of progress sets of design documents. For example, assuming the concept drawing is complete as provided in the, does the government want review periods for schematic design, or any progress of construction documents such as 50% CD or 90% CD?

VA PROJECT MANAGER'S RESPONSE

Only stamped drawings of concern are the structural system. Reviewed drawings in the design phase will be on color and concept.
