ADDITIONAL VETBIZ INFORMATION:

- (a) Eligibility of SDVOSBs continues to be governed by the Small Business Administration regulations, 13 CFR subparts 125.8 through 125.13, as well as the FAR, except where expressly directed otherwise by the VAAR, and 38 CFR verification regulations for SDVOSBs.
- (b) At the time of submission of offer, the offeror must represent to the contracting officer that it is a—
 - (1) SDVOSB concern
 - (2) Small business concern under the North American Industry Classification System (NAICS) code assigned to the acquisition; and
 - (3) Verified for eligibility in the VIP database.
- (c) A joint venture may be considered an SDVOSB or VOSB concern if
 - (1) At least one member of the joint venture is an SDVOSB or VOSB concern, and makes the representations in paragraph (b) of this section;
 - (2) Each other concern is small under the size standard corresponding to the NAICS code assigned to the procurement;
 - (3) The joint venture meets the requirements of paragraph 7 of the size standard explanation of affiliates in FAR 19.101; and
 - (4) The joint venture meets the requirements of 13 CFR 125.15(b), modified to include Veteran-owned small businesses where this CFR section refers to SDVOSB concerns.
- (d) Any SDVOSB or VOSB concern (nonmanufacturer) must meet the requirements in FAR 19.102(f) to receive a benefit under this program.

JOINT VENTURES - See 13 C.F.R. § 121.103:

(h) Affiliation based on joint ventures: A joint venture is an association of individuals and/or concerns with interests in any degree or proportion consorting to engage in and carry out no more than three specific or limited-purpose business ventures for joint profit over a two-year period, for which purpose they combine their efforts, property, money, skill, or knowledge, but not on a continuing or permanent basis for conducting business generally.

This means that a specific joint venture entity generally may not be awarded more than three contracts over a two-year period, starting from the date of the award of the first contract, without the partners to the joint venture being deemed affiliated for all purposes. Once a joint venture receives one contract, SBA will determine compliance with the three awards in two years rule for future awards as of the date of initial offer including price.

As such, an individual joint venture may be awarded more than three contracts without SBA finding general affiliation between the joint venture partners where the joint venture had received two or fewer contracts as of the date it submitted one or more additional offers which thereafter result in one or more additional contract awards. The same two (or more) entities may create additional joint ventures, and each new joint venture entity may be awarded up to three contracts in accordance with this section. At some point, however, such a longstanding inter-relationship or contractual dependence between the same joint venture partners will lead to a finding of general affiliation between and among them.

For purposes of this provision and in order to facilitate tracking of the number of contract awards made to a joint venture, a joint venture must be in writing and must do business under its own name, and it may (but need not) be in the form of a separate legal entity, and if it is a separate legal entity it may (but need not) be populated (i.e., have its own separate employees). SBA may also determine that the relationship between a prime contractor and its subcontractor is a joint venture, and that affiliation between the two exists, pursuant to paragraph (h)(4) of this section.

NOTICE TO PROCEED (NTP):

A notice to proceed shall be issued after award of a fully executed contract. The NTP date and time are “to be determined” after award to a successful offeror. Primary factor in determination to issue NTP shall be the Prime Contractor submission of, and the Government review and approval of Performance Bonds, which is enforceable legal documents and required per FAR 52.228-16 Alternate I.
