

TECHNICAL EXHIBITS:

Technical Exhibit #1: Annual Workload Information

The workload stated in the following schedule of services is approximate, based on the weekly volume handled in FY18 to date, and in no way is to be construed as a guarantee by the government as to work that will be processed under contract. In this regard, the workload is subject to changes resulting from many factors, i.e. hospital admissions, weather, mission changes, product changes (new light weight fabrics), etc.

WTVAHCS
