

<p>specimen identification, testing, shipping requirements (RT, refrigerated, frozen) source and destination information.</p> <p>e. In order to maintain the integrity of the laboratory specimen, they shall be transported by the Reference laboratory courier in a manner that shall not interfere with the specimen integrity or quality.</p> <p>f. Test results shall be received within 24 hours following specimen pick-up either by hard copy or electronic report transmission. It is recognized that certain test procedures will require a longer Turnaround time that 24 hours. The contractor shall provide a list of the estimated turnaround time for any tests that require longer than 24 hours to complete.</p> <p>g. The Reference laboratory shall store specimens a minimum of 7 -10 days after the test is reported to the submitting facility in the event that subsequent action is necessary (i.e. problem solving, add-on test, and/or repeat testing). The Reference laboratory shall state their specimen retention time.</p>
