Source Sought Announcement: This is a Sources Sought Announcement only, it is neither a solicitation nor a request for proposal or quotes and does not obligate the Government to award contract. The work will be performed at the VA Southern Nevada Healthcare System, at 6900 Pecos Rd, North Las Vegas, NV 89086. Interested firms should provide sufficient information to allow informed evaluation and decision to ascertain if there is enough competition to solicit this requirement as an Service Disable Veteran Owned Business (SDVOSB). The Government is not obligated to nor will it pay for or reimburse any costs associated with responding to this sources-sought synopsis request. This notice shall not be construed as a commitment by the Government to issue a solicitation or ultimately award a contract, nor does it restrict the Government to a acquisition approach. The VA is mandated by Public Law 109-461 to consider a total set-aside for Service Disabled Veteran Owned Small Business set aside. However, if response by Service Disabled Veteran Owned Small Business firms proves inadequate, an alternate set-aside or full and open competition may be determined. The estimated cost range is Between \$2,000,000 and \$5,000,000. The NAICS code for this service is 238220. The proposed contractor shall furnish and install burners of a similar or like requirement as listed in the below scope of work. The Small Business Size standard is \$15 MILLION. Please respond the to the sources sought addressing these questions. (1) Examples of Burner Replacement projects completed within the last five years of similar size, scope, complexity and duration as the work indicated. State whether your firm worked as a prime or subcontractor, contract value, brief description of how the referenced contract relates to the work described, and provide an agency or owner point of contact. (2) Provide a company profile, to include number of employees, annual receipts, office location(s), and DUNS number. (3) Evidence to establish your company's standing as an (SDVOSB) small business concerns, under applicable NAICS. (4) A positive statement of your intention to submit a proposal for this requirement if set-aside for your socio-economic group. **THIS IS NOT A REQUEST FOR PROPOSALS.** Responses must be received no later than 4:00 PM, Local Time on September 27, 2018. Electronic submissions will be accepted if sent via email to [Dominik.Gammon@va.gov](mailto:Dominik.Gammon@va.gov) Questions regarding this notice may be addressed to [Dominik.Gammon@va.gov](mailto:Dominik.Gammon@va.gov). Failure to submit all information requested will result in a contractor not being considered as an interested small business concern.

### SCOPE OF WORK

The project will require the furnish, replace and install all the burners and associated instrumentation, valves and ancillary equipment on the three existing four pass wetback scotch marine York Shipley Model 5112L- S4W-700-S200 700 HP firetube boilers. The boilers have capacity to operate up to 200 psi at 24,000 lbs./hr., all boilers now operate at 100 psig and supply saturated steam to the medical center. The new burners shall be designed to burn natural gas (10psig at the header) and use low sulfur fuel oil with propane pilot as backup to the natural gas operation. The existing burner management system and plant control panel is Hayes Cleveland Universal Programmable Automation Controller (UPAC). The boilers are equipped with a Fuel Gas recirculation (FGR) system to assist with emission control, and single pass economizers mounted on top of the boiler at the stack connection for improved efficiency. The boilers are installed at 2,162 feet above sea level and tuned to meet EPA and local air quality permit requirements using the following emission parameters: 15% excess air / 3% O<sub>2</sub>, < 10% opacity, 50 ppm CO, 30 ppm NO<sub>x</sub>.

The Government will not entertain any questions or inquiries until RFP issuance. Responses to questions or inquiries shall be posted through a solicitation amendment.
