**Description:** The Government's lease of approximately 57,600 ABOA Square Feet of space and a minimum of 25 parking spaces (not to exceed 200 parking spaces) for use by VA as a Research & Development facility in the delineated area explained below within Charleston, SC is expiring. The maximum rentable square feet (RSF) cannot exceed 64,800. VA is considering alternative space if economically advantageous, and that otherwise the Government intends to pursue a sole source acquisition. In making this determination, VA will consider, among other things, the availability of alternate space that potentially can satisfy the Government's requirements as well as costs likely to be incurred through relocating such as physical move costs, replication of tenant improvements and telecommunications infrastructure, and non-productive agency downtime. VA will consider leased space located in an existing building as well as land for new construction for a build-to-suit lease option.

The space being sought for the Research & Development facility will need to accommodate administrative areas; wet labs; dedicated staff locker rooms with showers; and dedicated space for small and large animals, including full surgical and diagnostic laboratory facilities.

**Lease Term:** Up to 20 years.
