

VA 6A Renovation RFIs

1. Nurse Call: The nurse call drawings show waterproof emergency pulls only in the resident rooms where the bathroom is against the outside wall. However, every bathroom looks to be configured the same way. Is there to be a waterproof pull in every bathroom or just half of them as indicated on the drawings?

They are to be just in the locations they are shown in. They are in the showers.

2. Could you please advise what wood veneer/cut is required for the Wing 6A new wood doors? The spec says to match Wing 6D but we do not have any information about 6D.

Tell them to come by and take a look. I honestly don't know
