1	BREVERA™ BREAST BIOPSY SYSTEM WITH CORLUMINA™ IMAGING TECHNOLOGY
1	BREVERA® BREAST BIOPSY SYSTEM REUSABLE DRIVER
1	BREVERA® BREAST BIOPSY SYSTEM ADAPTER

Product Name	Long Description
BREV100	<p>The Brevera breast biopsy system with CorLumina imaging technology has system components for vacuum-assisted breast tissue biopsy and system components for x-ray generation and image acquisition under stereotactic X-ray or tomosynthesis image guidance. A user interface for data entry, patient selection, and image acquisition and review is on the Imaging display. Console requires an adapter for each image guidance system and includes: Two days on-site training-One year standard parts and labor warranty-Title passes to customer. Hologic® Platinum Marketplace: Access to a comprehensive co-operative marketing program focused on business growth through patient and referring physician education on the benefits of the Affirm™ prone breast biopsy guidance system. Online entry into the program will be provided once order is placed and online initiation form completed at hologicmarketplace.com/user/register.</p>
BREVDRV	<p>The biopsy device driver is an electromechanical component powered by the console. When the device driver is connected to the biopsy needle, the device driver propels the rotation and the advancement of the cutting cannula in the biopsy needle. The device driver also arms and fires the biopsy needle.</p>
BREVADPTR	<p>The Brevera adapter is a separately packaged accessory that connects the Brevera biopsy device to the Hologic prone or upright image guidance system.</p>
