REQUISITION: 630-B80014

Qty	Description
1	3DIMENSIONS MAMMOGRAPHY SYSTEM 3D US
1	3DIMENSIONS HIGH-RESOLUTION DETECTOR
1	3DM ERGONOMIC UPGRADE
1	C-VIEW SOFTWARE LICENSE
1	AFFIRM BREAST BIOPSY GUIDANCE SYSTEM
1	FMI KIT, DIMENSIONS 1.7 TOMO BIOPSY
1	FIRMODUCT, ADAPTER, EVIVA, AFFIRM KIT
1	AKRUS STANDARD MAMMOGRAPHY CHAIR
1	AFFIRM TRAINING, INITIAL, 3 DAYS, 1 SITE, MAX 3 TECHS & 3 DOCS

Qty	Description
1	AFFIRM 3D UPG TRAINING, INITIAL, 1 DAY, 1 SITE, MAX 3 TECHS & 3 DOCS
1	SCO SELENIA DIMENSION ENABLED
1	DIMENSIONS NEEDLE LOCALIZATION KIT
3	RACK, PADDLE STORAGE
1	CLINICAL APPS INITIAL TRAINING
1	MEDICAL PHYSICIST, INITIAL TRAINING, 8 HOURS (5 HOURS LIVE - 3 HOURS ONLINE TRAINING), 1 SITE, MAXIMUM 2 PHYSICISTS
1	RADIOLOGISTS 3D INITIAL TRAINING 8 HOURS VIRTUAL TRAINING, 14 RADIOLOGISTS, 90 DAY ACCESS PERIOD
1	TRADE IN GE ESSENTIAL 2D, 3DM ONLY
1	CAD TRAINING, INITIAL, 1 DAY, 1 SITE, MAX 10 RADS
1	CENOVA 2D TOWER SYSTEM
1	IMAGECHECKER CAD (10.0) LICENSE FOR ONE FFDM
1	ACR 156 PHANTOM
1	ACR 156 PHANTOM CASE
1	INTELLIGENT 2D IMAGING TECHNOLOGY LICENSE FOR 3DIMENSIONS ONLY

3D w/

Qty	Description
1	SECURVIEW-DX 1200 (STD/CLNT)
1	SVDX LICENSE & ACCESSORY KIT - US
1	UPS FOR SVDX, SVRT, OR MANAGERS - US
1	MULTIVIEW MULTIMODALITY (MM) SOFTWARE AND SINGLE USER LICENSE
1	APPLICATION SYNCHRONIZATION SOFTWARE FOR MULTIVIEW/SECURVIEW DX
1	THIRD PARTY APPLICATION SYNCHRONIZATION LICENSE FOR WS-SW-1020
1	BARCODE READER FOR SVDX, SVRT, OR MANAGERS
1	SECURVIEW GENERIC DISPLAY FOR APP SYNC OR PATIENT LIST

Qty	Description
1	SECURVIEW DICOM CALIBRATED 24" COLOR DISPLAY FOR MULTIMODALITY
1	MULTIVIEW MM APPLICATIONS TRAINING, 1 DAY, 1 SITE, MAX 5 RADS
1	SECURVIEW DX TRAINING, INITIAL, REMOTE, 1 SITE, MAX 5 RADS

Long Description

3Dimensions™ mammography system for 3D™ screening and diagnostic mammography with 2D capabilities. Upgradeable to interventional imaging. 3Dimensions™ is a high-resolution capable system (once FDA approved and/or commercially available). Includes: X-ray Gantry: •Generator: Fully integrated constant potential, high frequency, inverter type •X-ray Tube: Tungsten, bi-angular, high speed, high heat capacity •X-ray Filters: Rhodium, silver, aluminum •Anti-scatter Grid: Auto-retracting linear grid •Dual-function gantry footswitches (2) with Genius™ 3D Mammography™ artwork on gantry foot cover Adjustable-height Acquisition Workstation: •CPU: Multi-Core Intel-based CPU, 16 GB RAM min., 2 TB disk min., DVD +/- R/W, Win 7/64 •NVIDIA GPU •User Interface Display: 1.2 MP color LCD touchscreen display •Image Review Display: 21.3" 3 MP, medical-grade color, DICOM monitor with double-jointed articulating arm •Full X-ray shield, X-ray exposure footswitch, pull-out keyboard drawer, keyboard and mouse •Uninterruptible Power Supply (UPS) 3Dimensions™ System Software: •User access control, patient and study selection, imaging procedure selection and definition, X-ray parameter control, image review and acceptance/rejection, quality control. •Software Licenses: 3Dimensions™ System, Diagnostic Imaging, Dynamic Tube Head Motion, Tomosynthesis Imaging, Advanced Connectivity, Bi-directional Communication (Notices), SmartCurve™ Breast Stabilization System (installed at a later date) Connectivity: •DICOM: Modality work list, storage, storage commitment, query/retrieve, print •IHE Profiles: Scheduled workflow, patient information reconciliation, mammography image •Advanced Connectivity: Ability for the system to participate in DICOM Modality Performed Procedure Step (MPPS) transactions and to output DICOM Radiation Dose Structured Report (RDSR) objects to third-party dose aggregation and reporting systems. The MPPS and RDSR capabilities can be enabled and disabled independently. Accessories: •Small 18 x 24 cm SmartCurve System and large 24 x 29 cm SmartCurve System (all to be shipped at a later date) •Screening Paddles (3): Frameless, 24 x 29 cm, 18 x 24 cm, small breast •Diagnostic Paddles (5): Spot contact, spot contact 10 cm, spot contact 7.5 cm, 10 cm magnification, 7.5 cm spot magnification •Spot Contact Paddle (1): 7.5 cm for use during QC testing only •Other: Magnification stand with platform, flat field phantom and cese, ACR tomosynthesis geometry calibration phantom, Dimensions interconnect cable kit •Shields: 2D fixed face shield and sliding 3DMammography™ face shield •MammoPad® Breast Cushion trial box Platinum Marketplace: The Hologic® Platinum Marketplace provides access to free and for purchase promotional and educational material designed to help drive demand for the Hologic products that your site offers. From customizable features to options for digital download or professional printing, choose what works best for your practice.

Included Service: Installation by Hologic certified technicians. Warranty: Standard one-year parts and labor warranty; two-year prorated manufacturer's warranty on X-ray tube. Warranty service coverage is Monday-Friday from 8:00 am to 5:00 pm local time. Conditions: •Required but independently sold software features are not included gratis under Hologic Warranty, or Hologic Service Contracts that include software upgrades, and must be ordered separately •Required system software updates that are included under Hologic Warranty, or Hologic Service Contracts will be provided at no charge SecurView® Workstation Recommendations: If using SecurView workstations, please contact your Hologic representative to confirm that your workstations meet the minimum software and hardware requirements to support the 3Dimensions™ configuration.

Hologic 3D Mammography™ high-resolution digital image receptor for 3Dimensions™ mammography systems or to upgrade existing Selenia® Dimensions® systems. Includes: Digital Image Receptor •Amorphous selenium, TFT •Structure: Single 24 x 29 cm plate •Image Matrix Sizes: 2560 x 3328 (18 x 24 cm); 3328 x 4096 (24 x 29 cm) •Pixel Size: 0.070 mm •Limiting Spatial Resolution: 7.1 lp/mm

Provides an integrated ergonomic package for the 3Dimensions™ system. Includes: •Fingerprint reader for quick biometric login of the technologist, manager or other site personnel •Powered memory height adjust •Bar code scanner Note: •Kit only available for 3Dimensions systems

Enables creation of C-View™ generated 2D images on Selenia® Dimensions® systems or 3Dimensions™ systems configured with Hologic standard resolution 3D™ imaging. The C-View software license adds the ability to create low dose tomosynthesis studies in Tomo HD (standard tomo + C-View) and Combo HD (standard tomo + FFDM + C-View) imaging modes. Includes: •C-View Generated 2D Imaging software license

Long Description

The Affirm® upright breast biopsy guidance system for a 3Dimensions™ system or Selenia® Dimensions® system supports stereotactic 2D biopsy and wire localization. Supports fast positioning through motorized X and Y axis guidance with manual Z direction positioning. The Affirm upright does more than deliver superior imaging performance to 2D biopsy. It's designed to integrate with the Selenia Dimensions system from the ground up to streamline workflow and accelerate the journey from screening to breast biopsy. Includes: •Affirm breast biopsy guidance module •Biopsy control module with touchscreen display •One (1) Stereotactic 2D Biopsy software license for one gantry; additional licenses may be purchased •Biopsy compression paddles (3): Standard biopsy compression paddle (biopsy window: 5.4 x 5.2 cm); axillary biopsy compression paddle (biopsy window: 5.4 x 5.2 cm); wide biopsy compression paddle (biopsy window: 7.4 x 6.2 cm) •Quality assurance needle •Needle guide holder •Geometry calibration phantom •Affirm tabletop stand •User and service manuals Included Training: •Three days onsite training for 3 technologists and 3 radiologists Requires: •2MP medical grade LCD display •Dimensions system software version 1.9 or later •3Dimensions™ or Selenia Dimensions system with both diagnostic and dynamic tube head motion for 2D Biopsy license installed •3Dimensions™ or Selenia Dimensions system serial number at time of order Recommendations: •3MP medical grade DICOM monitor Hologic® Platinum Marketplace: Access to a comprehensive co-operative marketing program focused on business growth through patient and referring physician education on the benefits of the Affirm™ breast biopsy guidance system. Online entry into the program will be provided once order is placed and online initiation form completed at hologicmarketplace.com/user/register.

The Affirm® Tomosynthesis Biopsy software license provides the ability to easily and accurately target lesions with tomosynthesis imaging including lesions that may only be found under tomosynthesis. This license provides the ability to use Affirm tomosynthesis biopsy software on one (1) 3Dimensions™ system or (1) Selenia® Dimensions® tomosynthesis system that has an Affirm Upright Biopsy license. Also included is a tomosynthesis biopsy QAS needle. Intended for use on new 3Dimensions™ or Selenia Dimensions system purchases. Includes: •3D™ Biopsy license •3D™ QAS Target Requires: •3Dimensions 3D™ system or Selenia Dimensions 3D™ system, system with DTHM license for biopsy and 3D imaging •Affirm breast biopsy guidance system •Affirm Stereotactic 2D Biopsy license •2MP medical grade LCD display •Supply the system serial number with your order Recommendation: •3MP medical grade DICOM monitor

Provides secure mounting of Eviva® hand pieces onto both prone and upright Affirm® biopsy guidance systems.

AKRUS mammography positioning and biopsy chair. Supports seated, decubitus and Trendelenburg positioning. Includes: • Adjustable backrest (0 to 90 degrees) • Adjustable backrest segments • Adjustable arm supports • Adjustable headrest • Lateral back support • Electronic lift • Three position braking system • Max pt weight 300 lb Warranty: • Standard one-year parts and labor warranty

Three (3) days of Applications Training for 3 technologists and 3 doctors per site. * Applications must be completed within 24 months of equipment installed. * Please note: Cancellation must be made 6 business days prior to the confirmed and scheduled applications training start date.

* One (1) day of applications Training for up to 3 Technologists and 3 Doctors per site. * Applications must be completed within 24 months of equipment install. * Please note: Cancellation must be made 6 business days prior to the confirmed and scheduled applications training start date.

Long Description

THIS CONFIGURATION ALLOWS FOR THE OUTPUT OF TOMOSYNTHESIS IMAGES IN SECONDARY CAPTURE OBJECT (SCO). USE OF THIS CONFIGURATION WILL FIRST REQUIRE AN INTEGRATED PLANNING TEAM, INCLUDING YOUR IT DEPARTMENT, HOLOGIC, AND OTHER VENDORS TO WORK TOGETHER TO INSURE YOUR ENTERPRISE IS READY FOR THE USE OF THE TOMOSYNTHESIS DATA IN SCO FORM. PLEASE NOTE THAT SCO IMAGES ARE NOT READABLE ON PACS. SCO IMAGES CAN ONLY BE READ ON A HOLOGIC SOFTCOPY WORKSTATION. A COMPLETE REVIEW OF YOUR CURRENT ENTERPRISE ENVIRONMENT WILL PROVIDE THE TEAM AN UNDERSTANDING OF ANY INFRASTRUCTURE REQUIREMENTS AND CHANGES THAT MAY BE REQUIRED TO MEET THE MINIMUM SPECIFICATIONS REQUIRED TO READ, STORE, AND ARCHIVE THE SCO FORM. WHILE A PRELIMINARY REVIEW BY YOUR HOLOGIC REPRESENTATIVES MAY HAVE ALLOWED THAT ABILITY TO QUOTE THIS OUTPUT CONFIGURATION, SOFTWARE AND HARDWARE UPGRADES MAY STILL BE REQUIRED. HOLOGIC MAKES NO GUARANTEES OF SOFTWARE AND HARDWARE PERFORMANCE FOR PRODUCTS NOT ASSOCIATED TO HOLOGIC. BY SIGNING THIS QUOTE THE CUSTOMER AGREES THAT THE COMPLETION OF PURCHASE OF THE ACCOMPANYING HOLOGIC PRODUCTS SHALL NOT BE CONTINGENT ON THE IMPLEMENTATION OF THIS NO CHARGE CONFIGURATION. REQUIREMENTS: -COMPLETE REVIEW OF CURRENT ENTERPRISE BY SITE PERSONNEL IN CONJUNCTION WITH HOLOGIC REPRESENTATIVES. -PACS SYSTEM INCLUDING DEEP ARCHIVE CAPABLE OF STORING/RETRIEVING SCO IMAGES WITH SUITABLE STORAGE CAPACITY. - HOLOGIC SOFTCOPY WORKSTATION HOLOGIC IS OFFERING CUSTOMERS THE OPTION TO CONVERT ITS SECONDARY CAPTURE OBJECT(SCO -THE ORIGINAL FORMAT FOR STORING GENIUS MAMMOGRAPHY EXAM IMAGES), TO BREAST TOMOSYNTHESIS OBJECT (BTO), TO ALLOW CUSTOMERS THE CAPABILITY OF READING GENIUS IMAGES ON ITS PACS SYSTEM, HEREAFTER REFERRED TO AS THE (DATA CONVERSION). SHOULD THE CUSTOMER CHOOSE TO PERFORM THE DATA CONVERSION PROCESS, YOUR HOLOGIC ACCOUNT MANAGER WILL PROVIDE YOU WITH ADDITIONAL DETAILS FOR THIS BILLABLE SERVICE.

Optional needle localization kit for needle localization procedures for 3Dimensions™ systems. Includes: •Crosshair paddle •Magnification crosshair paddle •10 cm localization rectangular opening paddle •10 cm rectangular localization magnification paddle

Wall-mounted, felt-lined rack for storing system compression paddles. Each rack, sold separately, provides enough storage room for 3-4 compression paddles. Includes: •Paddle storage rack with felt lining •Wall-mounting bracket (installation not included) •Graphic paddle labels Dimensions: •W x H x D: 36 1/4" x 7" x 4" (from the wall) •Minimum Vertical Pitch: 12" to 14" when multiple racks are installed one above another Recommended: •Selenia® Dimension® Avia systems: min. 1 rack •Selenia Dimensions 2D systems: min. 2 racks •Selenia Dimensions 3D™ systems: min. 3 racks •3Dimensions™ systems: min. 3 racks Requirements: •Must be securely attached to the wall •Must be installed by a professional installer

Included in the purchase price of your 3Dimensions™ or Selenia® Dimensions® system(s); Initial applications Technologists: Onsite applications training or other clinical support at one site, maximum of 5 technologists. •Online CEU courses required prior to onsite applications training •Video training available during and post applications training •Onsite portion of purchased applications training or other clinical support must be completed within 24 months of equipment installation. Required FDA training: •FFDM accreditation is required: Apply to the ACR or your State for FFDM certification. •Once FFDM accredited, contact the MQSA FFDM Certification Extension Program for Tomosynthesis at 301-796-5710. •Sites must obtain ACR or State FFDM accreditation before using the tomosynthesis modality Note: Cancellation must be made 6 business days prior to the confirmed and scheduled applications training start date.

Included in the purchase price of your 3Dimensions™ or Selenia® Dimensions® system(s); Initial . Medical Physicists: 5 hours of live tomosynthesis training with a Hologic Field Service Engineer during the installation of the system and access to Hologic's 3-hour online tomosynthesis training course for medical physicists to fulfill the 8 hour FDA requirement. See course description for more details and requirements. Visit www.hologic.com/training for a complete list of Hologic educational opportunities. Note: Cancellation must be made 6 business days prior to the confirmed and scheduled applications training start date.

Long Description

Included in the purchase price of your 3Dimensions™ or Selenia® Dimensions® system(s); Initial applications Radiologists: Access to Hologic's virtual tomosynthesis training course for up to 14 radiologists. This program will fulfill the 8-hour FDA training requirement. Upon activation, each radiologist will have 90 days to complete the course. See course description for more details and requirements. Visit www.hologic.com/training for a complete list of Hologic educational opportunities.

Trade-in allowance for a GE Senographe Essential 2D mammography system. Transfer of Ownership to Hologic must be completed to guarantee pricing of the overall deal.

* One (1) day of Applications Training. Training for up to 10 Rads * Applications must be completed within 24 months of equipment installed. * This training cannot be performed until FFDM certification extension is received for Tomosynthesis. * Please note: Cancellation must be made 6 business days prior to the confirmed and scheduled applications training start date. * Initial

The Cenova™ digital mammography processing system hosts image analytics software applications. Image analytics licenses are sold separately. Includes: •Cenova processing unit server (6U) •Windows 7 operating system •Dynamic resource management and case control •Output transmission re-try mechanism •Flexible output routing to multiple output destinations •License dongle •Hologic Connect™ remote system diagnostics software for post-installation service and applications support; conforms with Verisign security Requirements: •Specify manufacturer and model of FFDM system at time of order •Verify with the technical team that the number of licenses on a server can be adequately supported. Notes: •This server can be used horizontally and rack-mounted by ordering R2ACC-2001. (R2SYS-2200-1U is a thinner server, ships with a rack mount and is preferred for rack mounting.) •The system is designed to process 2D images only

The ImageChecker® Digital computer-added detection (CAD) and Citra™ advanced CAD display software adds one port license to a Cenova™ image analytics server to process images from a single digital mammography system. Includes: •One ImageChecker CAD software license to support: •Hologic software generated 2D images •Hologic and other manufacturers 2D FFDM systems •Citra advanced CAD display license to provide additional information about why ImageChecker CAD marked specific regions: •RightOn™ CAD marks placed right on the region-of-interest to unambiguously flag the location •Malc™ CAD marks placed where the algorithm sees signs of both density and calcifications •PeerView Digital to show exactly the tissue that caused CAD to mark the region •EmphaSize™ variable size CAD marks differentiate CAD marks that have more prominent features •LesionMetrics™ ancillary CAD information to display additional information about the finding Requirements: •A Cenova server at Cenova software version 2.4.3 or later •Specify serial number, manufacturer and model of FFDM system at time of order •For CAD on C-View generated 2D images, a Dimensions® tomosynthesis system with software version 1.8.3 or higher •Please refer to SecurView® DX diagnostic workstation description for minimum requirements Notes: •Advanced Citra CAD features require workstations that conform to proper display of those features. They can be disabled for use with other non-conformant workstations. The customer needs to check with their workstation vendor •This item is for use with 2D Images only. •Verify with the technical team that the number of licenses on a server can be adequately supported. •Order additional licenses for each additional FFDM system. •With respect to the future development path of our products, during the warranty period and during the term of any Hologic Service Agreement, Hologic will provide, at no cost to the Customer, any commercially released software update that (i) improves the ability of any Equipment purchased under the Agreement or software purchased as part of the Equipment to function in accordance with its published specifications and (ii) does not require any new hardware or other hardware modifications. Hardware is not part of Hologic service agreements; if Hardware needs to be replaced, there will be an additional charge. This offer is entirely contingent on whether Hologic receives applicable regulatory approval for the software update, and the software update is subsequently commercially released. There are no guarantees that this will be the case, and, therefore, Hologic makes no commitment and assumes no obligation to the contrary.

The Mammographic Accreditation Phantom manufactured by Gammex is designed to test the performance of a mammography system's image quality and sensitivity using target objects in the phantom to simulate calcifications, fibrous calcifications in ducts, and tumor masses. The phantom simulates the X-ray attenuation of a 4.2 cm compressed human breast composed of 50% adipose tissue and 50% glandular tissue. Target objects within the phantom range in size, shape, and density, similar to those found clinically. •Breast phantom is compatible with digital and analog equipment. •Approved by ACR for Mammography. Image quality and system sensitivity follow ACR and MQSA guidelines. •Dimensions: Height 1.75 in. (4.5 cm) x width 4 in. (10.2 cm) x depth 4.25 in. (10.8 cm)

Long Description

<p>Compact and lightweight carrying case with shoulder strap designed with custom foam cutouts to hold each of the Gammex 156 phantom's components to help protect them during transport and storage.</p> <ul style="list-style-type: none">•Material: Outer case black Cordura, inside black nylon, foam lining•Dimensions: Exterior 9 x 6 x 4 in., interior 8.63 x 5.5 x 3.5 in.•Weight: 0.5 lbs.

Long Description

<p>SecurView DX 1200 is cleared under a 510(k) submission for display, manipulation, and interpretation of FFDM images (from any vendor), as well as DICOM images from other breast imaging modalities.</p> <p>System Specifications: High End Workstation High End, six core, Xeon Processor Windows Based System (2.0GHz or higher) 16GB High Speed RAM (3) 2TB SAS drives in RAID 5 array 10/100/1000 Base T Ethernet Network Interface Display Hardware Barco Coronis Uniti 12MP color display (Barco model MDMC-12133). Luminance - 1000 cd/m2 (DICOM calibrated) Active screen size (diagonal) 853 mm (33.6"). Dimensions with stand: 795 x 610 x 300 mm. High End 10-bit Medical Grade Display Card Attached Devices Multi-function Mouse Backlit Keyboard Dedicated Workflow Keypad Designed for Mammography Applications Power UPS Software Windows 7 Operating System Dedicated Mammography Based Reviewing Software (User Specific Hanging Protocols, Workflow, etc) Integrated CAD Display (CAD Software and Systems sold separately) Automated Display QC Software DICOM Connectivity - Print Store, Query/Retrieve, CAD SR Objects, Grayscale Software Presentation State Objects User Manual Installation Manual Options: Advanced Multimodality Module, Application Synchronization Module, MPE Software, SecurView DX Manager, Barcode Scanner The SecurView software may include certain third party software products and libraries. In purchasing this product, the customer agrees and accepts that such software is licensed to the customer under the existing terms and conditions of the applicable license.</p>

<p>The MultiView MM software facilitates simultaneous review of additional breast imaging modalities, such as ultrasound and MR. Includes Application Synchronization software for integration with SecurView. For synchronization with third party applications, WS-LIC-1005 must be ordered separately. Requirement: SecurView DX Workstation 8.3 or higher running on a Dell Precision 7600 computer. One or two color displays can be supported. Order separately: WS-DISP-1004 24" DICOM calibrated display or WS-DISP-1003 27" display.</p>

<p>Application Synchronization for SecurViewDX with MultiView.</p>

<p>The Application Synchronization option provides synchronization between SecurView and commonly used Reporting, Dictation, and RIS products. Application Synchronization 3.0 and later requires SecurView DX 7.0 or later to operate. The list of supported third party applications is extensive; consult your Connectivity Sales Specialist for currently supported applications. If SecurView is running on Windows 7, confirm with the Connectivity Specialist that the specific third party application is validated to run on Windows 7. For sales to customers who already own a SecurView workstation, the SecurView system serial number should be noted. (Note to Sales Admin: for serial numbers before 2980212B4085 (for SVDX-00400) and 6980212B0547 (for SVDX-0200), the kit WS-LIC-1002 should be added to the order.) If a color display is required for the third party application, this should be ordered separately from the list of supported displays.</p>

<p>Barcode Scanner for SecurView(DX) standalone and client systems. • High quality barcode reader with advanced sleep mode • Can be mounted onto either side of the review workstation • Uses Accession Number or Patient ID to automatically select a patient for review (Previous Product ID: ASY-01012)</p>

<p>SecurView Generic 2MP Color Display (ASY-01798) specifications: 21 inch 2 MP color display (1600 x 1200) DVI adaptor Installation and setup included. This option is not intended for display of images in conjunction with the Multimodality option; it can be added to a base SecurView system or a system that has a single multimodality display for supported third party applications, or for the Patient Manager. (Previous Prod ID: ASY-01798)</p>

<p>24" DICOM calibrated color monitor to be used in conjunction with the SecurView Multimodality option. Two monitors can be supported. Requirement: SecurView DX workstation version 7-0-0 or higher</p>

Long Description
Training limited to 5 radiologists during initial training period Initial training period ends 15 days after first training session Remote training is the standard method of training, unless technical limitations prohibit this method Please note:

Long Description
Includes Dell R730 Server, SecurXchange SW and 5 year warranty
2U rack Mountable 1500VA, 120V Uninterruptable Power Supply. For US and 110V markets only. Includes power management software.
* Training provided via Video-On-Demand from Hologic.com * Training may be accessed at anytime for unlimited staff for an unlimited period.
