

Qty	Description
1	<p>Xeleris* 4.0 SPECT functional imaging workstation is a Nuclear Medicine, PET, NM/CT, and PET/CT processing, analysis, and review system. Designed with productivity in mind, it can accelerate workflow and provides a powerful clinical diagnostic tool to the medical imaging community.</p> <p>Combining streamlined workflow with a comprehensive clinical library and extensive networking capabilities on a functional imaging workstation, Xeleris 4.0 is at the nucleus of productivity in the clinical imaging department. Utilizing the GE Healthcare-wide graphical user interface, Xeleris 4.0 is the processing and review platform of the Discovery* and Brivo* NM and series, Infinia*, Ventri, and all other SPECT cameras in GE Healthcare's current offering. Xeleris 4.0 provides the automated processing and connectivity necessary in today's demanding environment.</p> <p>Xeleris 4.0 SPECT includes Motion detection & correction software.</p>
1	<p>Cedars Sinai Cardiac Packages.</p> <p>A comprehensive set of nuclear cardiology protocols for advanced cardiac analysis, including:</p> <ul style="list-style-type: none">o Cedars Sinai Quantitative Perfusion SPECTo Automatic 3-Dimensional software approach to quantitative Perfusion SPECT.

Qty	Description
	<ul style="list-style-type: none"> o Cedars Sinai Quantitative Gated SPECT o An application calculating the ejection fraction of the left ventricle and a 3D surface display is generated. o Cedars Sinai Companion o Optional module for QGS and QPS applications features <ul style="list-style-type: none"> - 17 segment scores and templates in QPS - Diastolic filling parameters in QGS - Eccentricity ratio in QGS
1	<p>Ectoolbox VI Workstation A comprehensive set of nuclear cardiology protocols for advanced cardiac analysis, including a variety of databases of normal patients for comparison covering various acquisition protocols, including 1 and 2 day Sestamibi, Dual Isotope, Stress/Rest Tetrofosmin, Thallium, Myoview Pharmacologic Stress, and a 1 day Rest/Stress Tetrofosmin for GE Healthcare Discovery NM 530c and NM/CT 570c cameras.</p>
1	<p>Xeleris 4 Dual LCD Monitor & License for a single Xeleris 4 Workstation.</p> <p>This item contains:</p> <ul style="list-style-type: none"> o One 22" WideScreen format monitor for Xeleris 4 MI workstation. Provides 40% greater viewing area. o One Dual monitor license <p>Dual Monitor license enables the option on Xeleris 4 Workstation and all its XFL clients</p>
1	<p>Xeleris 4 Quantitation Package Onsite Training - 2 Day</p> <p>This 2-day course is designed to train NM Technologists and Physicians in the methodology, acquisition and practical application of one Xeleris 4 SPECT or SPECT/CT quantitation package.</p>
