SECTION C - CONTRACT CLAUSES

ADDENDUM to FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS

Clauses that are incorporated by reference (by Citation Number, Title, and Date), have the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available.

The following clauses are incorporated into 52.212-4 as an addendum to this contract:

C.1 52.216-18 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from Date of Award through September 30, 2012.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of Clause)

C.2 52.216-21 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for

the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after October 30, 2012.

(End of Clause)

C.3 52.243-1 CHANGES--FIXED-PRICE (AUG 1987)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government in accordance with the drawings, designs, or specifications.

(2) Method of shipment or packing.

(3) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(End of Clause)

C.4 VAAR 852.203-70 COMMERCIAL ADVERTISING (JAN 2008)

The bidder or offeror agrees that if a contract is awarded to him/her, as a result of this solicitation, he/she will not advertise the award of the contract in his/her commercial advertising in such a manner as to state or imply that the Department of Veterans Affairs endorses a product, project or commercial line of endeavor.

(End of Clause)

C.5 VAAR 852.216-70 ESTIMATED QUANTITIES (APR 1984)

As it is impossible to determine the exact quantities that will be required during the contract term, each bidder whose bid is accepted wholly or in part will be required to deliver all articles or services that may be ordered during the contract term, except as he/she otherwise indicates in his/her bid and except as otherwise provided herein. Bids will be considered if made with the proviso that the total quantities delivered shall not exceed a certain specified quantity. Bids offering less than 75 percent of the estimated requirement or which provide that the Government shall guarantee any definite quantity, will not be considered. The fact that quantities are estimated shall not relieve the contractor from filling all orders placed under this contract to the extent of his/ her obligation. Also, the Department of Veterans Affairs shall not be relieved of its obligation to order from the contractor all articles or services that may, in the judgment of the ordering officer, be needed except that in the public exigency procurement may be made without regard to this contract.

SECTION D - CONTRACT DOCUMENTS, EXHIBITS, OR ATTACHMENTS

DESCRIPTION / SPECIFICATIONS / WORK STATEMENT

A.1 BACKGROUND

The Beverly National Cemetery is located in Burlington County New Jersey, approximately 10 miles outside of Philadelphia, PA. Cemetery grounds encompass approximately 65 acres of land with several large hardwood shade trees on site. Beverly National Cemetery is a National Shrine that honors veterans with a final resting place and lasting memorials that commemorate their service to our Nation. The cemetery receives visitors, holds ceremonies and conducts committal services. Because of the cemetery's special significance and attention it receives from the public, strict adherence to contract specifications is essential.

The cemetery's main tree population consists of both Red & Pin Oaks. Due to a bacterial leaf scorch disease that has plagued both of these species of trees causing their decline and death, the cemetery has had several tree removal and pruning projects completed. This in turn has impacted / reduced the overall tree population of the cemetery and there is now a need to begin replenishing the number of shade trees onsite.

A.2 GENERAL REQUIREMENTS

A.2.1 Place of Performance: The Contractor shall furnish all supervision, labor, equipment, tools, materials and supplies necessary to provide tree planting / installation services at the following VA National Cemetery:

<u>CEMETERY</u>	<u>ADDRESS</u>	<u>ACREAGE</u>	<u>REQUIRED SERVICES</u>
Beverly National Cemetery	RD # 1 Bridgeboro Road Beverly, NJ 08010	65	Tree Planting / Installation.

A.2.2 Tree Planting Inventory: **Planting location of each tree is to be determined by the MSN 1 Agronomist who will meet with the Contractor after contract award to mark the planting locations before any planting work begins.** The following tree species shall be provided by the Contractor for planting in accordance with all terms, conditions, specifications and requirements provided herein:

Thirty (30) Pignut Hickory (Carya Glabra) 3" caliper

Thirty (30) Shagbark Hickory (Carya Ovata) 3" caliper

Twenty (20) Black Tupelo (Nyssa Sylvatica) 3" caliper

If these particular species of trees are unable to be located by the Contractor a decision will be made by the MSN 1 Agronomist on a suitable substitute species.

All trees will be warranted by the Contractor for one year (365 days) after installation. Warranty will cover any death or failure of the tree to thrive that is caused by incorrect planting practices or

damage to the tree during the planting process and disease or insect infestation that afflicted the tree upon its delivery from the nursery. If a tree needs to be replaced under the warranty, the Contractor will replace the tree or trees with the same genus / species of tree at the same size at no additional cost to the government.

A.3 SPECIFICATIONS

A.3.1 Tree Planting / Installation

- (a) Planting / installation of all trees shall be accomplished under the direction and guidance of a professional Certified Horticulturist / Landscape Contractor.
- (b) All trees to be installed will have a trunk caliper measurement of three (3) inches.
- (c) Trees that will be planted will be balled and burlapped (B & B) with the root ball being sized in proper relation to the height and diameter of the tree. For trees in the 2.5 – 3 inch caliper range, this means that the root ball should be roughly twenty eight (28) inches in diameter, with the tree being roughly 13-15 feet in height. Root balls will be tightly wrapped and secure upon delivery to the cemetery. They should be somewhat moist and free of cracks and weeds with the trunk being secure and not able to move loosely in the root ball. Burlap used to wrap the trees should not be plastic but should be natural. All root balls will be dug properly at the nursery to avoid excessive soil being piled on the top of the root ball (no more than six inches) and around the trunk of the tree to avoid a root crown that is too deep. Trees will be provided / dug from a local nursery that experiences the same climate conditions similar to those of the Beverly National Cemetery.
- (d) Trees that are to be planted will possess a single leader only and will be rejected for planting if they have either two main trunks or a double leader. Trees should not display any weak crotches and should be all symmetrically developed and uniform in size. Trees should be healthy and vigorous and will be free of any evidence of disease, sunscald, windburn, abrasions / gashes to the trunk, live insect infestation, or insect eggs attached to the trees. There should be no fungal cankers attached to the branches or trunk of the tree and the bark should not have any discoloration or sunken / swollen areas. There should also be no dead buds on the tree or brittle twigs that may be evidence of a parched / dry root ball.
- (e) During transportation of the trees to the cemetery trees will be covered with a tarp to prevent drying out or damage from wind. Protective coverings around the trunk will be left on until the tree has been planted to protect against any damage from equipment or shovels during planting. Trees will be gently lowered into the planting hole and will not be dropped off of a truck, with a front end loader, backhoe or skid steer loader with forks being used to unload trees from the truck and transporting them to the planting hole. All trees are to be lifted by the root ball and will not be dragged by the trunk.
- (f) Planting holes will be dug to a size that is twice the diameter and exactly as deep as the root ball with any and all rocks removed to a depth necessary to permit proper planting. The Contractor will make sure that the sides of the planting hole are not glazed after digging and will be sure to scarify the soil surface on the sides of the planting hole to allow for movement of tree roots from the root ball into the surrounding soil. To prevent the root ball from being planted too deeply the Contractor will be sure to place the root ball on solid, undisturbed soil and not loose soil. Excess soil around the root collar of the tree will be pulled away to

determine exactly where the root flare needs to be placed to determine the proper planting depth of the tree in the planting hole.

- (g) After determining the proper placement of the tree in the planting hole and making sure that the tree is standing straight the Contractor will remove any twine that is holding burlap in place. Biodegradable natural burlap will be removed from at least the upper third of the root ball and can be placed into the bottom of the planting hole. If plastic / artificial burlap is surrounding the root ball it is to be removed in its entirety from the root ball and the planting hole. If any trees contain a wire basket around the root ball it is to be cut and removed from the planting hole in its entirety by the Contractor. **At no time is the wire caging to be left on the root ball nor is string, twine or burlap to be left on the top of the root ball around the trees trunk when the backfilling of the planting hole begins.**
- (h) The Contractor will then begin backfilling the planting hole with the native topsoil that was removed when digging the planting hole. Any large clumps of clay, rocks or other unsuitable material will not be added back into the planting hole. Topsoil will be gently packed when backfilling to prevent any air pockets and topsoil will continue to be added to the planting hole until the root ball has been completely covered with topsoil. Topsoil will then be raked evenly over the entire planting area forming an earth saucer / berm that completely surrounds the base of the tree but also extends slightly beyond the root ball. The earth saucer will then be covered with 3 inches of shredded hardwood mulch. When applying mulch, the Contractor will be sure to avoid piling too much mulch directly around the base of the tree trunk to prevent the trunk from remaining constantly moist which can lead to fungus / rotting around the base of the trunk/. After application of the mulch around the soil saucer, the Contractor will gently water the tree with a steady stream of water allowing the water to pool in the earth saucer and letting it slowly soak into the soil.
- (i) Slow release watering bags sometimes known as Treegators (www.treegator.com) will be supplied for each tree that is planted and will be installed around each tree after the initial watering of the tree has been completed. Bags will be 30" tall x 18" wide and able to fit a single 3" caliper tree.
- (j) Trees will be staked using stakes made from rough sawn wood that is free of any knots, rotting, cross grain or other defects that may impair their strength. Stakes will be 2 inches by 2 inches in diameter, eight feet in length and pointed at one end.
Hose chafing guards shall be new or used 2-ply reinforced rubber or plastic hose of all the same color on the project. Flags to be fastened to guys shall be surveyor's plastic tape, white in color and 6 inches in length. Guying straps shall be a fabric material designed specifically to guy newly planted trees. **No wire should ever be used for this purpose.** Turnbuckles shall be galvanized or cadmium-plated and have a 3 inch minimum lengthwise opening fitted with screw eyes. Eye bolts shall be galvanized or cadmium plated having a one inch diameter eye with a minimum screw length of 1-1/2 inches. Deadmen shall be 4 inch by 8 inch rectangular, or 8 inch diameter by 36 inch long sound wood. Arrow shaped or auger iron anchors shall be noncorrosive, and sized according to the manufacturer's recommendation.

A.3.2 **Debris & Waste Removal:** Removal of debris and waste away from the cemetery grounds shall be the responsibility of the Contractor. At the end of each day, the Contractor will remove all debris, excess soil from the cemetery site resulting from the work. The Contractor shall ensure at all times that debris and waste generated by the Contractor is kept clear of vehicular and

pedestrian traffic throughout the site. NOTE: The Government shall not provide receptacle(s) for disposal of debris related to this contract.

A.3.3 Communication & Coordination of Work with COTR: Contractor shall participate in regular meetings with Government personnel and other Contractors at the cemetery to coordinate contract work schedules and contract related issues. Communication with the COTR is strongly encouraged. Burial activities at NCA shall take precedence over contract work activities. Work activity and noise cannot disturb Burial Services. Trucks and workers are prohibited from passing through the service area during this period.

A.3.4 Cemetery Activities: To cause the least possible interference with cemetery activities, contract personnel will stop (cease) all work in areas where burials are taking place. As a general "rule-of-thumb", work should not take place within 1,000 feet of an ongoing committal service or ceremony. The Site Manager will re-direct work throughout the rest of the Cemetery – so that productive use of labor and equipment is assured, and downtime is avoided. If the Contractor fails to re-direct employees away from an event in a timely manner, the COTR may then do so.

A.3.5 Notwithstanding the Contractors responsibility for total management during the performance of this contract, the administration of the contract will require maximum coordination between the Government and the Contractor. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
