Manifest Document #: _____ State Manifest Document #: _____

Waste Analysis Available: Yes _____ No _____

[illegible]

(A) **THIS RESTRICTED WASTE REQUIRES TREATMENT TO THE APPLICABLE STANDARD.** This waste must be treated to the applicable performance based treatment standard set forth in 40 CFR Part 268 Subpart C, 268.32 Subpart D, 268.40 or RCRA Section 3004(d) prior to land disposal.

(B) THIS HAZARDOUS DEBRIS IS SUBJECT TO THE ALTERNATIVE TREATMENT STANDARDS OF 40 CFR 268.45.

(C) THIS RESTRICTED WASTE HAS BEEN TREATED TO THE PERFORMANCE STANDARDS. I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and base this certification upon my inquiry of those individuals immediately responsible for obtaining this information. I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268 Subpart D, and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(D) THIS RESTRICTED WASTE, FOR WHICH THE TREATMENT STANDARD IS EXPRESSED AS A SPECIFIED TECHNOLOGY, HAS BEEN TREATED BY THE SPECIFIED TECHNOLOGY. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(E) **THIS RESTRICTED WASTE CAN BE LAND DISPOSED WITHOUT TREATMENT.** I certify under the penalty of law that I have personally examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

Generator _____ Manifest Document # _____

(F) THIS RESTRICTED DEBRIS HAS BEEN TREATED IN ACCORDANCE WITH 40 CFR 268.45. I certify under penalty of law that the debris has been treated in accordance with the requirements of 40 CFR 268.45. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(G) THIS LAB PACK DOES NOT CONTAIN ANY WASTES IDENTIFIED AT APPENDIX IV TO PART 268. I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack contains only wastes that have not been excluded under appendix IV to 40 CFR part 268 and that this lab pack will be sent to a combustion facility in compliance with the alternative treatment standards for lab packs at 40 CFR 268.42(c). I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment.

(H) THIS RESRICTED WASTE HAS BEEN TREATED TO REMOVE THE HAZARDOUS CHARACTERISTIC. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(I) THIS RESTRICTED WASTE HAS BEEN TREATED TO REMOVE THE HAZARDOUS CHARACTERISTIC AND HAS BEEN TREATED FOR UNDERLYING HAZARDOUS CONSTITUENTS. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic, and that underlying hazardous constituents, as defined in 268.48 Universal Treatment Standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(J) THIS RESTRICTED WASTE IS SUBJECT TO AN EXEMPTION FROM LAND DISPOSAL. This waste is subject to an exemption from a prohibition on the type of land disposal method utilized for the waste (such as, but not limited to, a case-by-case extension under 40 CFR Part 268.5, an exemption under 40 CFR 268.6, or a nationwide capacity variance under 40 CFR 269 Subpart C).

(K) THIS RESTRICTED WASTE WITH TREATMENT STANDARDS EXPRESSED AS CONCENTRATIONS IN THE WASTE PURSUANT TO 268.43, IF COMPLIANCE WITH THE TREATMENT STANDARDS IN SUBPART D OF THIS PART IS BASED IN PART OR IN WHOLE ON THE ANALYTICAL DETECTION LIMIT ALTERNATIVE IN 268.439(c). I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining information, I believe that the nonwastewater organic constituents have been treated by incineration in units operated in accordance with 40 CFR Part 264 Subpart O, or 40 CFR Part 265 Subpart O, or by combustion in fuel substitution units operating in accordance with the applicable technical requirements, and I have been unable to detect that nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(L) THIS DECHARACTERIZED WASTE CONTAINS UNDERLYING HAZARDOUS CONSTITUENTS THAT REQUIRE FURTHER TREATMENT TO MEET UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristics. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(M) THIS WASTE HAS BEEN TREATED IN ACCORDANCE WITH THE REQUIREMENTS OF 40 CFR 268.40 TO REMOVE THE HAZARDOUS CHARACTERISTIC AND THE UNDERLYING HAZARDOUS CONSTITUENTS, AS DEFINED IN 268.2(I) HAVE BEEN TREATED ON-SITE TO MEET THE 268.48 UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that the above is true. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

(N) THIS CONTAMINATED SOIL DOES / DOES NOT (*CIRCLE ONE*) CONTAIN LISTED HAZARDOUS WASTE AND DOES / DOES NOT (*CIRCLE ONE*) EXHIBIT A CHARACTERISTIC OF HAZARDOUS WASTE AND IS SUBJECT TO / COMPLIES WITH (*CIRCLE ONE*) THE SOIL TREATMENT STANDARDS AS PROVIDED BY 268.49(c) OR THE UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with the treatment standards specified in 40 CFR 268.49 without impermissible dilution of the prohibited wastes. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

I hereby certify under penalty of law that all information submitted on this and all associated documents is complete, accurate and true to the best of my knowledge.

TABLE 2 - WASTE CODES WITH SUBCATEGORIES

Waste Codes	Subcategory Number	Subcategory
D001	1	High TOC ignitable liquids
	2	Low TOC ignitable liquids managed in CWA/CWA equivalent/Class 1 SDWA systems
	3	Low TOC ignitable liquids managed in non-CWA/non-CWA equivalent/non Class 1 SDWA systems
D002	4	Corrosive waste managed in CWA/CWA equivalent/Class 1 SDWA systems
	5	Corrosive waste managed in non-CWA/non-CWA equivalent/non-Class 1 SDWA systems
D003	6	Water reactive
	7	Reactive cyanides
	8	Reactive sulfides
	9	Other reactive wastes
D006	10	Characteristic for cadmium based on extraction procedure
	11	Cadmium-containing batteries
D008	12	Characteristic for lead based on extraction procedure
	13	Lead acid batteries
D009	14	Low mercury (<260 ppm total mercury)
	15	High mercury (>260 ppm total mercury)
F003 F005	16	Wastes that contain only one or more of the following solvents: carbon disulfide, cyclohexanone and/or methanol
F005	17	Contains only 2-nitropropane
	18	Contains only 2-Ethoxyethanol
F025	19	Light ends
	20	Spent filters/aids and desiccants
K006	21	Anhydrous
	22	Hydrated
U151	23	Nonwastewaters that contain >260 ppm total mercury
	24	All U151 wastewaters
K071	25	Nonwastewaters that are residues from RMERC
	26	Nonwastewaters that are not residues from RMERC
	27	All K071 wastewaters
P047	28	4,6-Dinitro-o-cresol
	29	4,6-Dinitro-o-cresol salts
P065	30	Nonwastewaters, not incinerator or RMERC residues
	31	Nonwastewaters from RMERC with less than 260 ppm mercury
	32	Nonwastewaters from incinerator residues with less than 260 ppm mercury
	33	All P065 wastewaters
P092	34	Nonwastewaters, not incinerator or RMERC residues
	35	Nonwastewaters from RMERC with less than 260 ppm mercury
	36	Nonwastewaters from incinerator residues with less than 260 ppm mercury
	37	All P092 wastewaters
U240	38	2,4-D (2,4-Dichlorophenoxyacetic acid)
	39	2,4-D (2,4-Dichlorophenoxyacetic acid) salts and esters

TABLE 3 - CALIFORNIA LIST WASTES

1) PCB > or = 50 ppm

2) Halogenated Organic Carbon (HOC's) > or = 1000 mg/l

3) Nickel > or = 134 mg/l

4) Thallium > or = 130 mg/l

TABLE 4 - REGULATED CONSTITUENTS FOR F001 – F005

- | | | |
|---------------------------------|-----------------------------------|---|
| 5) Acetone | 15) Ethyl Acetate | 24) Pyridine |
| 6) Benzene | 16) Ethyl Benzene | 25) Tetrachloroethylene |
| 7) N-Butyl Alcohol | 17) Ethyl Ether | 26) Toluene |
| 8) Carbon Disulfide | 18) Isobutanol (isobutyl alcohol) | 27) 1,1,1 Trichloroethane |
| 9) Carbon Tetrachloride | 19) Methanol | 28) 1,1,2 Trichloroethane |
| 10) Chlorobenzene | 20) Methylene Chloride | 29) 1,1,2 Trichloro 1,2,2 Trifluoroethane |
| 11) Cresols (o, m or p isomers) | 21) Methyl Ethyl Ketone | 30) Trichloroethylene |
| 12) Cresylic Acid | 22) Methyl Isobutyl Ketone | 31) Trichlorofluoroethane |
| 13) Cyclohexanone | 23) Nitrobenzene | 32) Xylene (Total) |
| 14) 1,2-Dichlorobenzene | | |

Land Disposal Restriction Form
2005 Revision
Instructions for Completion

- 1) Enter the number of pages used, not including the Table 1 through Table 4 attachments. This will need to be entered on each page.
- 2) Enter the name of the generator, as it appears on the manifest, on each page of the land ban.
- 3) Enter the generator's EPA ID number on page 1.
- 4) Enter the generator's address, as it appears on the manifest, on page 1.
- 5) Enter the manifest document number on each page. Note that federal regulations require that this be a **5-digit** alpha-numeric on hazardous waste manifests.
- 6) Enter the state manifest document, if any, on page 1.
- 7) Check the appropriate box on page 1 indicating whether waste analysis has been performed.
- 8) Indicate the manifest line for each line of hazardous waste on the manifest. [i.e. 11a, 28d(2), 28c(5) etc.]
- 9) Indicate the profile number for each line. Waste should not be shipped until the profile is approved, recertified as needed, and any addenda submitted have been approved by the profile committee.
- 10) Indicate the appropriate RCRA waste codes for each line item. (Or "none" for non-hazardous wastes.)
- 11) Indicate any subcategory codes from Table 2 which apply to these waste codes. If none apply, put NA in this box.
- 12) Indicate whether the material is a wastewater (ww) or non-wastewater (nww). A wastewater is any material which contains <1% by weight total organic carbon and <1% by weight total suspended solids. [40 CFR 268.2(f)]

13) Indicate whether the waste contains any of the California list materials from Table 3. Note that neither Morgantown nor Calvert City is permitted to accept PCB waste greater than 50 ppm. If the material is manifested to either AES facility, there should **never** be a 1 listed in this column.

14) Indicate regulated solvents and underlying hazardous constituents for each line item from tables 4 and 1 respectively.

- For each F001 through F005 code you must indicate at least one solvent from Table 4 which matches that waste code. Note that the F001 and F002 solvents are the same. F001 should apply only when those solvents have been used in degreasing operations. Any other use for the solvent should result in the use of F002.
- If there are no D001-D043 codes on the line item, do not list any UHC's. If the material has a D001 code and is not an oxidizer, do not list any UHC's. If the material has a D001(ox)-D043, list any Z code from Table one which applies. Note that any material for which there is already a waste code attached is not a UHC. For example, if the material has a D008 code for lead, you do not need to list Z249 in this box.

15) Place an "A" in the certification box for all wastes bearing EPA codes. Place an "NA" in this box for all wastes which do not have an EPA waste code. Other certifications may apply in special circumstances. Please contact Corporate Compliance before using any code other than "A".

16) Have the generator fill out the appropriate items at the bottom of page 2 and ensure that one copy of the land ban remains with the generator and one copy accompanies the load.

Each hazardous waste manifest must have a land ban attached during shipment and to be received at the designated facility. Bills of Lading or manifests carrying only non-hazardous waste do not require a land ban.
