

Hospital Beds Requirement

Sources Sought - 36C77620Q0006

Questions/Answers

1. Are the required products being acquired for purchase or rental?

The Government intends to purchase the required products.

2. Can you please give some further clarification on the usage numbers on Attachment 1 (Facility Locations and Estimates)? Are these total number of beds (for purchase) or perhaps number of beds in use per month or per year (for rental)? Please help clarify.

The minimum and maximum figures located in Attachment 1 (Facility Locations and Estimates) represents the estimated number of bed types/mattresses that each facility would potentially order depending their specific needs. The estimated quantities represent facility needs for the life of the contract. The maximum and minimum quantities within Attachment 1 are subject to change depending on each medical facility's needs.
