

Appendix A: Department of Veteran Affairs Information Security Rules of Behavior for Organizational Users

1. COVERAGE

- a. Department of Veterans Affairs (VA) Information Security Rules of Behavior (ROB) provides the specific responsibilities and expected behavior for organizational users and non-organizational users of VA systems and VA information as required by OMB Circular A-130, Appendix III, paragraph 3a(2)(a) and VA Handbook 6500, *Managing Information Security Risk: VA Information Security Program*.
- b. *Organizational* users are identified as VA employees, contractors, researcher, students, volunteers, and representatives of Federal, state, local or tribal agencies.
- c. *Non-organizational* users are identified as all information system users other than VA users explicitly categorized as organizational users.
- d. VA Information Security ROB does not supersede any policies of VA facilities or other agency components that provide higher levels of protection to VA's information or information systems. The VA Information Security ROB provides the minimal rules with which individual users must comply. Authorized users are required to go beyond stated rules using "due diligence" and the highest ethical standards.

2. COMPLIANCE

- a. Non-compliance with VA ROB may be cause for disciplinary actions. Depending on the severity of the violation and management discretion, consequences may include restricting access, suspension of access privileges, reprimand, demotion and suspension from work. Theft, conversion, or unauthorized disposal or destruction of Federal property or information may result in criminal sanctions.
- b. Unauthorized accessing, uploading, downloading, changing, circumventing, or deleting of information on VA systems; unauthorized modifying VA systems, denying or granting access to VA systems; using VA resources for unauthorized use on VA systems; or otherwise misusing VA systems or resources is strictly prohibited.

3. ACKNOWLEDGEMENT

- a. VA Information Security ROB must be signed before access is provided to VA information systems or VA information. The VA ROB must be signed annually by all users of VA information systems or VA information. This signature indicates agreement to adhere to the VA ROB. Refusal to sign VA Information Security ROB will result in denied access to VA information systems or VA information. Any refusal to sign the VA Information Security ROB may have an adverse impact on employment with VA.
- b. The ROB may be signed in hard copy or electronically. If signed using the hard copy method, the user should initial and date each page and provide the information requested under Acknowledgement and Acceptance. For Other Federal Government Agency users, documentation of a signed ROB will be provided to the VA requesting official.
