**The VHA Office of Reporting, Analytics, Performance, Improvement & Deployment's (RAPID) Performance Measurement Program serves as a vehicle for effecting change in a balanced fashion.**

**Key aspects of the Performance Measurement Program include:**

- Provides demonstration of a health system consistently using the best scientific evidence in clinical practice to reliably and efficiently achieve the highest quality health outcomes;
- Sets national benchmarks for the quality of preventive and therapeutic healthcare services that exceed private sector performance;
- Unifies managers and clinicians in purpose by use of an annual contract between Central Office and Networks called the Executive Career Field Plan; and,
- Facilitates provision of care to a larger veteran population without increasing health care expenditures.
