

## Attachment 1 - Equipment Lists

### Nurse Call Equipment List : (Rauland Responder 5):

Item#	Description	Qty	Unit
351000	Branch Regional controller	1	EA
351003	Power Supply's/ Battery Back Up	6	EA
351200	VOIP Consoles	2	EA
353001	Enhanced Single Patient Stations	45	EA
350202	Enhanced Pillow Speakers	45	EA
354000	Audio Pull Cords	45	EA
352000	Corridor Lights	48	EA
353100	Duty Stations	7	EA
353101	Staff Stations	3	EA
354012	Staff Assist Stations	4	EA
352020	Domeless Controller	10	EA
	Software		
366102	PC Console	3	EA
366104	Staff Assignments	3	EA
355002	Wireless Phone Integration	3	EA
366200	Reports Manager	3	EA
366402	HL7/ADT Interface	3	EA

### Patient Wandering System Equipment List: (Roam Alert)

Item#	Description of Equipment	Qty	Unit	Comments
SR3ID03	RoamAlert Door Controller	16	EA	<i>One required for each door location</i>
SR3L03E	RoamAlert Elevator Kit - includes: controller with receive antenna, 2 exciter antennas (for both regular and surface mount installation), 1.5A 24V power supply, 2 sets of door contacts, 1 keypad with cable	4	EA	<i>The elevator controller travels with the elevator car, providing protection for all floors. UL approved (Requires labor and installation by the facility elevator control company coordination by the awarded vendor)</i>
AR2NR01-485	RS-485 Repeater	2	EA	<i>For use with the RoamAlert Elevator System (SR3L03E) to ensure noise from the elevator shaft is not propagated along the RoamAlert network, or when the RS-485 network exceeds 4000 ft. in length. Also used to isolate difficult network segments</i>
AGECP02-024	CPS24 Central Power Supply (24-Volt) c/w 2 gel batteries	6	EA	<i>8-24VDC/1.25A power outputs to supply power to network devices. Includes backup batteries</i>
AR3IM01-008	I/O-8 Module	2	EA	<i>Network device used to integrate external alarms and security devices, such as cameras and lights, into the RoamAlert system</i>

804A3101	Integrated Network Manager (converts RS-485 to Ethernet)	4	EA	<i>Controls networks of Door Controller and Receivers, and connects to the Server PC over an Ethernet connection (Local Area Network). Ideal for multi-floor or multi-building installations where large distances are being covered between floors and buildings</i>
AR3SI01-0RA	RoamAlert Self-Install server Bundle (includes Network manager, PC and Monitor not included)	1	EA	<i>Installation and software configuration provided by dealer</i>
AR3SR01-0RA	RoamAlert Workstation License	4	EA	<i>License agreement to install the RoamAlert client software on a Console PC</i>
AR3TR02-POC	Pocket Tag Reader	3	EA	<i>For testing tag battery life</i>
AR3TA01-00W	Wrist Tag with locating pulse (vinyl strap included) 1 year warranty	55	EA	One per monitored individual
AR3KY01-030	Access Keypad Kit	16	EA	<i>Required for entry from either side of door</i>
15556	Mag locks	16	EA	<i>One required for each individual door</i>
804A2601	Securaband starter band kit	1	EA	<i>Tamper resistant straps, measuring strips, removal tool</i>
801A2701	Vinyl Strap with metal snap (package of 10)	6	EA	<i>Replacement straps for Wrist tag</i>
	Computers	5	EA	<i>4-Work Stations, 1 Server</i>
8041301	Receiver	210	EA	<i>Located every 15 foot for real time locating</i>
