REVIEW SUBJECT	CHECKED & OK	PROBLEM NOTED	COMMENTS/ACTION TAKEN <i>(for additional comments, use last page)</i>
----------------	--------------	---------------	--

<b>A. Ward/Clinic Area</b>			
----------------------------	--	--	--

1. Medication cart and medication room are properly secured.			
2. The storage area is clean (free of visible dust, spilled liquids, etc.).			
3. Arrangement and general neatness is satisfactory.			
4. Shelf labels, when present, are readable (not soiled, marked or defaced).			
5. Metric and apothecary conversion sheet is posted or available electronically.			
6. Poison control center telephone number is posted or available electronically.			
7. Antidote chart is posted or available electronically.			

<b>B. Medications</b>			
-----------------------	--	--	--

8. Medications are stored under conditions suitable for product stability. (e.g., appropriate temperature, light, etc)			
9. All medications are securely stored in accordance with medical center policy and medications are not left unattended outside the med room.			
10. Internal medications are separated from external medications.			
11. Patient medications are separated from ward stock and stored in accordance with medical center policy.			
12. Non-medication items are separated from medications.			
13. Medications are stocked with earliest dated items placed forward in the storage location.			
14. All medications are within their expiration date.			
15. Only approved medications are stocked/stored (on the approved ward stock list, no samples, restricted or non-formulary drugs).			
16. Concentrated electrolytes (e.g, potassium chloride, sodium chloride > 0.9%, potassium phosphate) are not present. (Exception: areas that have been approved to store concentrated electrolytes. In these areas, precautions are in place in accordance with medical center policy to prevent inadvertent administration.)			
17. Medication quantities are within the approved stock levels.			
18. Medications are properly labeled (this includes any medication or solution transferred from the original packaging to another container)			
19. Medication labels are readable (not soiled, marked or defaced).			
20. Opened multi-dose vials are dated and stored in accordance with Medical Center policy.			
21. Medications and parenteral fluids show no signs of obvious deterioration.			
22. All expired, damaged, and/or contaminated medications are segregated until they are removed from the storage area.			
23. Investigational medications are properly labeled and stored in accordance with medical center policy.
