**3. Authority for Action:**

☒ FAR 13.106-1(b), Soliciting from a Single Source

**4. Describe the supply or service to be acquired and the total estimated dollar value:** The Jesse Brown VA Medical Center, Chicago, IL, has a sole source requirement for one contrast delivery system.

Total Estimated Cost: \$27,500.00

Date Required: September 2013

**5. List the proposed contractor (name, contact, and phone number) and describe the unique knowledge or capabilities of the proposed contractor:**

The proposed vendor is Acist Medical Systems, Inc. (Point of Contact: Lane Stevens, 603-557-8138).

The Jesse Brown VA Medical Center (VAMC) has a requirement for one CVi Contrast Delivery System. The VAMC requires a contract delivery system which allows for continuous hemodynamic monitoring with the simultaneous injection of contrast, real-time variable flow control for precise and consistent administration, and the delivery of contrast through 4f catheters with high image quality. The Acist CVi is the only known delivery system which provides all of the aforementioned functions. With the CVi System, the VAMC will be able to reduce procedure time and minimize the volume of contrast and subsequent radiation exposure delivered to the patient, thus increasing the quality of patient care.

6. **Describe your market research efforts and efforts to ensure that offers are solicited from as many potential sources as is practicable:**

The requestor(s) surveyed available contrast delivery systems, clinical studies, and read medical publications and to include the Journal of Invasive Cardiology. The requestor(s) determined only the Acist CVi System will meet the VAMC's requirements.

The Contracting Officer has determined that Acist Medical Systems, Inc. is the sole source for the requested CVi System.

7. **State why you feel that the anticipated cost to the Government will be fair and reasonable:**

The vendor has quoted a discounted price 31% below that of its regular open market list price. Additional cost savings will be seen with reduced procedure times/increased clinical throughput and reduced usage of contrast dosage.

8. **Other:** None.

9. **Certifications:**

I hereby certify that the data provided above is accurate and complete to the best of my knowledge and belief.
