

Response to RFI's

Project #:	691-13-108WL
Project Name:	Remodel Police Building 236
Solicitation #:	VA262-13-B-1054

- 1. Drawing Page AD101, Key Note #15 States: Demolish (E) windows to remain and protect in place or replaced – See general note #12. Please clarify statement. Are the windows to remain and protect in place, removed and filled with concrete, or removed and replaced?**

Answer: (E) window to remain and protect in place. Disregard general note #12.

- 2. We are a subcontractor and are interested in bidding the locker portion of the subject Bid. The bid specifications list Spacesaver as manufacturer. Locker section #101919 says that "other manufacturers satisfying the requirements of the specifications shall be acceptable" but section # 105113 & 101916 do not say anything about alternate manufacturers. Can you please tell me if we can bid section 105113 & 101916 as an "equal to" manufacturer?**

Answer: Yes, "Approved Equal" product may be submitted.

- 3. In spec section 083313 (para 2.1.B) the roll-up door material is stainless steel but on the door/window page AE601 it calls out aluminum (Window Opening Type C = alum. clear anodize push-up counter door) and on page AE506 detail 9 it calls out aluminum. Please clarify.**

Answer: Provide stainless steel roll-up door as per specification.
