

DEPARTMENT OF VETERANS AFFAIRS

Justification and Approval

For

Other than Full and Open Competition

1. **Contracting Activity:** Department of Veterans Affairs
VISN 2 Network Contracting Officer (2/90)
Albany Stratton VA Medical Center
113 Holland Avenue
Albany, New York 12208-3410
2. **Nature and/or Description of the Action Being Processed:** This is a request for other than full and open competition for the procurement of IRBNet online database, from Research Dataware LLC, PO Box 1325 Lebanon, NH 03766 from August 15, 2013 through Sept. 30, 2013, with the option for 4 (four) one year renewals. Upon the basis of the following justification, the use of other than full and open competition for the proposed contractual action is hereby authorized pursuant to the authority of FAR Part 6.302-1-Only one responsible source and no other supplies or services will satisfy agency requirements.

Procurement Request number: 528-13-4-8108-0053

3. **Description of Supplies/Services Required to Meet the Agency's Needs:** IRBNet is a web-based service that helps researchers and administrative offices better manage electronic protocol submission, modification and tracking processes. IRBNet's product suite guides organizations through complex federal ethics compliance requirements governing human, animal and recombinant DNA research, and modules power Conflict of Interest, IRB (Institutional Review Board), IACUC, Biosafety, Sponsored Programs, Publication Tracking and other committees on a unified platform. IRBnet provides users with access to educational requirements, functional statements (scopes of practice), credentialing and privileging. Currently IRBnet is being utilized by VA hospitals in Central Arkansas, Memphis and Nashville.

4. **Statutory Authority Permitting Other than Full and Open Competition:**

- (X) (1) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements per FAR 6.302-1;
- () (2) Unusual and Compelling Urgency per FAR 6.302-2;
- () (3) Industrial Mobilization, Engineering, Developmental or Research Capability or Expert Services per FAR 6.302-3;
- () (4) International Agreement per FAR 6.302-4
- () (5) Authorized or Required by Statute FAR 6.302-5;
- () (6) National Security per FAR 6.302-6;
- () (7) Public Interest per FAR 6.302-7;

5. **Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):** Research Dataware, LLC. can meet the government's need for the unique technical support system that enables for the interface of research data for IRBNet Research committees. The IRBNet system is a critical information system that tracks grant review and submissions then summarizes data to support the mission of the IRB, IACUC, Research Safety and R&D committees. IRBNet system will permit an unlimited number of registered users to access the system via the automated user registration tool and allow research investigators to submit research grants internally through the local Research Administration office. Research Dataware, LLC maintains the exclusive technology and platform for the IRBNet database currently being used by other VA Research departments. Research Dataware is the sole source to provide access to its unique database for our Research requirements. Please see attached letter dated August 6, 2013 from Research Dataware stating that Research Dataware, LLC is the developer and provider of IRBNet and that its services are proprietary.
6. **Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:** Contracting officer posted a Sources Sought on FBO on July 30, 2013 for 15 calendar days and this yielded no responses.
7. **Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:** The FY13 cost for this service is \$18,500.00. This figure represents opt-in program fees and one-time personalization fees for service and solution configurations. The opt-in customization fields consist of the following:
 - a. IRB, IACUC, Research Safety and R&D Committee (Four Boards)
 - b. Unlimited submissions to the four boards
 - c. Unlimited users, and usage for all registered users
 - d. Up to 24 personalized Decision Letter wizards
 - e. Personalization and data maintenance of 2 IRBNet-VA existing wizards: R&D request to review research proposal, and IRB Subcommittee request to review research proposal form.
 - f. Additional Smart Form and Decision Letter custom configurations
 - g. One-time personalization of 2 IRBNet-VA existing wizards: \$ 6,600.00
 - h. One-time fee for service and solution configuration: \$11,900.00

Total: \$18,500.00

The following are the costs at other VISN 2 facilities for the opt-in program fees and one-time personalization fees for service and solution configurations:

- i. **Buffalo:**

One-time personalization of 2 IRBNet-VA existing wizards: \$ 6,600.00
 One-time fee for service and solution configuration: \$11,900.00
 Total: \$18,500.00
- j. **Syracuse:**

One-time personalization of 2 IRBNet-VA existing wizards: \$ 6,600.00
 One-time fee for service and solution configuration: \$11,900.00
 Total: \$18,500.00

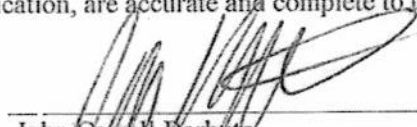

Pricing for option years at all sites is firm, fixed-price. Option year pricing is as follows:

- k. Albany \$2,225.00 per month
- l. Syracuse \$2,400.00 per month
- m. Buffalo \$2,398.33 per month

The difference in pricing for each site is attributed to different sizing characteristics (studies, staff and configuration items) at the sites. As such, the pricing quoted for Albany VA Medical Center is fair and reasonable. The Contracting Officer has determined that the anticipated cost to the Government will be fair and reasonable based on comparison with two other VISN 2 facilities (Buffalo VAMC and Syracuse VAMC) receiving the same service.

8. **Description of the Market Research Conducted and the Results, or a Statement of the Reasons Market Research Was Not Conducted:** Market research was conducted for the purpose of determining other viable sources in the open market with the ability to provide the same type of service. A search of GSA, FSS websites revealed that no contracts are currently in place to provide this service. The Contracting Officer also researched FedBizOpps (FBO) and discovered that Nashville VAMC also procured IRBnet services as a Sole Source procurement on October 9, 2012, see attached FBO posting. The market survey was conducted and the results are that Research Dataware, LLC is the sole company that has the technical capability of fulfilling this requirement.
9. **Any Other Facts Supporting the Use of Other than Full and Open Competition:** None.
10. **Listing of Sources that Expressed, in Writing, an Interest in the Acquisition:** A Sources Sought notice was posted to FBO on July 30, 2013 and yielded no other companies capable of providing this service.
11. **A Statement of the Actions, if any, the Agency May Take to Remove or Overcome any Barriers to Competition before Making subsequent acquisitions for the supplies or services required:** As it has been determined that Research Dataware, LLC is a sole source provider, no actions may be taken to overcome barriers to acquisition. However, should it be determined that VISN 02 has a future requirement for this type of service, the Contracting Officer will once again conduct a market survey to determine if any business can provide IRBnet.

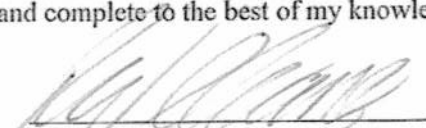

12. **Requirements Certification:** I certify that the requirement outlined in this justification is a bonafide need of the Department of Veterans Affairs and that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.
