

Exterior Signs

Wall Mounted Building Identification

Size

Sign Face:
914 mm H x 1219 mm W
(3' 0" H x 4' 0" W)

Description

Large, non-illuminated wall mounted sign. This sign type can be used to identify a building on a medical center campus. It also can be used for identification of a stand alone building that is not a medical center and there is not place to install a free standing sign.

Message Configuration

(Refer to message layout drawing for dimensions)

Message Layout A is for identifying a non-medical center, stand alone building.

Message Layout B and C are for identifying building on a medical center campus.

Graphic Process

Surface applied white reflective vinyl.

Colors

Text: White
Background: Refer to color chart

Recommendations

For a stand alone non-medical center building, use this type of sign when there is not place to install a free standing sign.

Use this type of sign for "tinting" building entrances that have a very high volume of patient and visitor traffic and needs to be clearly distinguished. It also can be use on a building that is set back a considerable distance from the roadway.

Position the sign adjacent the main entrance, if possible. If the sign is not readable in this position, then locate on the corner of the building.

This large sign should not be used on small buildings or buildings with minor uses.
