SlatTrax™

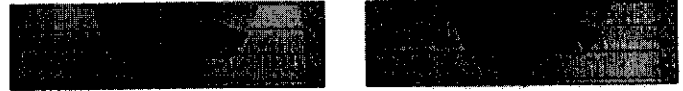

TURF PROTECTION SYSTEM

Roll out and retrieve Trax™ to protect turf from heavy equipment at work sites

Features

- Steel frame skid loader attachment
- Steel bodied spool assembly
- Trax— durable .75" thick recycled plastic
- 30" or 26" width tracks
- Three variable width options for wheel base requirements
- Hydraulic dispense of 100 feet in less than 2 minutes
- Convenient storage and ease of maintenance
- Made in the U.S.A.

Benefits

- Smart alternative to overlapped plywood, etc.
- Increase productivity
- Avoid unnecessary injuries
- Savings in storage, replacement and disposal versus other options

Basics

- Connect attachment to skid loader
- Secure spool assembly to attachment
- Elevate spool assembly and move to work site
- Deploy material as needed —disconnects when material is rolled off of the spool
- Following work, reconnect Trax to the spool and retrieve
- Use multiple spools to reach work sites beyond 100 feet
