CONSTRUCTION DOCUMENTS

- SURVEYOR'S NOTES:**
- This map or plot represents the topographic features and improvements of the property shown. The boundary survey for this property was conducted by McLin & Associates, Inc. The property boundary shown and corner monuments found illustrate the information contained on the survey map or plot prepared by McLin & Associates, Inc.
 - This topographic survey was conducted with the permission of the owner. The property is covered in dense vegetation. The owner allowed only limited clearing of property to conduct the survey. This survey illustrates the general topographic features of the property but small topographic details may not be shown because of inability to access areas.
 - Every document of record reviewed and considered as a part of this survey is noted hereon. Only the documents noted hereon were supplied to the surveyor. No abstract of title, no title commitment, nor results of title searches were furnished the surveyor. There may exist other documents of record which would affect this parcel.
 - Subsurface and environmental conditions were not examined or considered as a part of this survey. No statement is made concerning the existence of underground or overhead containers or facilities which may affect the use or development of this tract.
 - The property is located in a Zoning District IA (Industrial Area 5) and is described in Section 1.08 in the Plan of Government for East Baton Rouge Parish, Louisiana. Section 1.08 states that these areas are designated for industrial purposes and residential purposes are prohibited. Section 1.08 does not address any setbacks or building height requirements.
 - The abandoned wells shown on this survey were located using latitude and longitude information from the Department of Natural Resources of the State of Louisiana. No evidence on the surface was found to confirm the location of the abandoned wells.
 - Elevations associated with the location of trees were not used in development of the topography for this property. The survey data for tree locations was conducted for horizontal position only.

FEMA Zone A Definition:
Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Because detailed analyses are not performed for such areas; no depths or base flood elevations are shown within these zones.

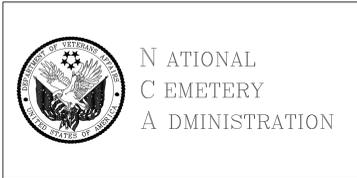

FIELD SURVEY: JANUARY THRU MARCH, 2011
